But as it is false husbandry to *graft* old branches upon young stocks: so we may wonder that our language (not long before this time, created out of a confusion of others, and then beginning to flourish like a new plant) should (as helps to its increase) receive from his hand new *grafts* of old withered words.—*Davenant. Preface to Gondibert.*

And kills the slimy snail, the worm, and labouring ant,
Which many times annoy the *graft* and tender plant.

Shakespeare. Hen. V. Act iii. sc. 5.

And the word, which St. James pronounces able to save our souls, he describes as a *graff*, which must not only be closely embraced by that, wherein it is to fructify, but must continue there, to bring the stock and *graff* to (if I may speak) concorporate.—*Boyle. Works*, vol. ii. p. 293.

I am informed by the trials of more than one of the most skilful and experienced *grafters* of these parts, that a man shall seldom fail of having cherries borne by his *graft* the same year in which the insition is made, if he take care that his *graft*, which must be of a good kind, have blossom-buds, as they are wont to be called, upon it

Boyle. Works, vol. i. p 341.

But it is worth observing, for our present purpose, what happens both in ordinary *graftings*, and especially in that kind of incision (taking the word in a large sense) which is commonly called inoculation.—*Boyle. Works*, vol. iii. p. 71.

If that history be not true, Christianity must be false. The Jews are the root, we the branches, "*grafted* in amongst them."—*Watson. Apology for the Bible*, Let. 5.

Thus, while genuine revelation and sound philosophy are in perfect good agreement with each other, and with the actual constitution of the universe, the errors of the religious on the one side, and the learned on the other, run in contrary directions; and the discordance of those errors is mistaken for a discord of the truths on which they are severally *grafted*.—*Bp. Horsley*, vol. iii. Ser. 39.

"Monarchs," said Twitcher, setting down his beer:
His muscles wreathing a contemptuous sneer:
"Monarchs of mole-hills, oyster-beds, a rock!

And preach't the truth; but since it greatly did decay.

The same Grecians preferred before all other *graine*, those three sorts, to wit, Dracontias, Strangias, and Selinusium; esteeming the goodnesse of the corne by the thicknesse and bigness of the straw, and attributing these three kinds by that signe and argument, to the goodnesse and riches of the soile: and therefore they prescribed to sow this corn in a fat and battle ground.—*Id. Ib.* b. xviii. c. 7.

I fain would understand, why this delightful place,
In former time that stood so high in nature's grace,

GRANT, *v.* GRANT, *n.* GRA'NTABLE. GRANTE'E. GRA'NTOR. } Skinner and Junius from the Fr. *Garantir*; i. e. says the latter, *patrocinium* suum alicui *addicere*, et ita *reddere securum*. He notices that in the middle ages *garantizare* was used for *warantizare*, of Teutonic origin. And Menage derives from the Ger. *Waren*, which itself is from the A. S. *War-ian*, *ge-warian*, cavere, providere, custodire, defendere; to provide or foresee, to keep or guard, to defend; and thus to *grant* will mean, to confirm or secure, (sc.) the possession of a thing to another, to *guarantee* it. The *grant* (*concessio*) and the *warrant* (*warrantus*) were, however, at one period of our law, very distinct things, whatever they may have been at an earlier age. As now used, to *grant* is, in its most ordinary usages, equivalent to—

To give, to bestow, to concede, to yield, to allow.

GRE'EKLING. GRE'EKISH. GRE'CISM. } *Greekling*,—a diminutive of *Greek*; a little *Greek*; a *Greek* of little value or esteem. *Grecism*,—a mode of expression peculiar to, an idiom of, the *Greek* language.

Tooke says, *green* is the past part. of *grennian*, *virescere*; as *viridis* of *virere*, and *prasinus* from πρασον; but *gren-ian* may itself be from *grow-an*; and applied to the colour produced by the *growing* or *growth* of vegetable life.

The distant mountains that seemed to support the clouds, the villages and turrets, partly shaded with trees of the finest verdure, and partly raised above the groves that surrounded them, the dark plains and meadows of a *greyish* colour, where the sheep were feeding at large, in short, the view of the streams and rivers, convinced us there was not a single useless or idle word in the above-mentioned description, [in *L'Allegro*,] but that it was a most exact and lively representation of nature.
Sir W. Jones. Letter to Lady Spenser, Sept. 7, 1769.

Thou [Petronius] polish'd and high finish'd foe to Truth,
Gray-beard corrupter of our list'ning youth,
To purge and skim away the filth of vice,

GREY-HOUND. This word is of unsettled etymology. Dr. Hickes, in his *Dictionarium Islandicum*, says, "*Grey*, canis; exstat in nostro *grey-hund*. Comp. ex *grey*, and *hunta*, venator:" q. d. a hunting dog. Dr. Jamieson so far supplies the deficiency of Hickes as to produce an instance of the usage of the word *Grey*, in its simple form; but neither he nor Hickes say any thing with respect to the cause of the application. Minshew thinks that *Grei-hound* is *Grecian-hound*, because first in use among the Greeks. The Dutch have *Griip-hund*, canis rapax, from *Grypen*, to *gripe*, and *hund*. (See *Kilian*.) The A. S. is *Grig-hund*. The etymology produced by Pennant (see the quotation from him) seems fanciful, and indeed it is not very clear, whether he means that the dog took his name from his own rank, or from that of his authorized master. In addition to his reference to the Laws of Canute, it may be observed, that, by 13 Rich. II. c. 13, "No priest nor other clerke, if he be not aduanced to the value of x. *li.* by the yeere, shall haue or keepe any *greyhound*, *hound*, or other dogge for to hunt," &c. In some of our old Writers the word is contracted into *Greund*.

On ther first eschel [division] he smot in full hastif,
& thorgh tham tika del, als *grehound* or mastif.
R. Brunne, v. 189.

Grehoundes he hadde as swift as foul of flight.
Chaucer. The Prologue, v. 190.

I knowe it well, quod the king: the *grayhounde* maketh you chere this day as Kynge of Englande, as ye shal be, and I shal be deposed: the *gray-houde* hath this knowledge naturally; therefore take hym to you, he will follow you and forsake me.—*Berners. Froissart. Cronycle*, c. 241.

And they [stags] was not only cowrsayd wt sum *greunds*, but also wt horsmen, wt darts and sperys, and many so sleyne.—*Lodge Illustrations*, vol. i. p. 6. *Sir Philip Draycot to the Earl of Shrewsbury.*

Till he [the hare-finder] this pretty beast upon the form hath found,
Then viewing for the course, which is the fairest ground,
The *greyhounds* forth are brought, for coursing then in case
And choicely in the slip, one leading forth a brace,
The finder puts her up, and gives her coursers law.
Drayton. Poly-Olbion, s. 23.

Looke how a gentle *grewnd*, that doth assaile
And flies upon a stranger at the furst,
Will on the sodaine faune and wag his taile,
If so of bread one profer him a crust.
Harrington. Orlando Furioso, b. xx. s. 94.

We see in beasts, that those that are weakest in the course, are yet nimblest in the turne; as it is betwixt the *grey-hound* and the hare.—*Bacon. Ess. Of Discourse*

The next kind is the *Leporarius*, or *gre-hound*. Dr. Caius informs us, that it takes its name *quod præcipuè gradus sit inter canes*: the first in rank among dogs: that it was formerly esteemed so, appears from the Forest Laws of King Canute, that no one under the degree of a gentleman should presume to keep a *gre-hound*.
Pennant. British Zoology. The Dog.

GRICE. Skinner acknowledges the word only as (in Piers Plouhman) applied *ad porcellum*, to a young pig. Perhaps from the Dut. *Grus*, Fr. *Gris*, cinereus, seu colore cineritius; ashy, coloured like ashes; the young of swine being of this colour, though the old ones may be darker. It is applied by B. Jonson to—
The cub of a badger.

Both my goos and my *grys*, and my gras he taketh.
Piers Ploughman, p. 66.

I am a lord of other geers! this fine
Smooth bowson's cub, the young *grice* of a *gray*;
Twa tynie urchins, and this ferret gay.
B. Jonson. The Sad Shepherd, Act ii. sc. 2.

GRIDE. See GIRD, to smite.
To smite, to pierce or cut through.

These bitter blasts neuer gin t' asswage?
The keene cold blows through my beaten hide,
All as I were through the body *gride*.
Spenser. Shepheard's Calender. February.

The weary reaper oft complains of ills:
As his keen sickle *grides* along the lands,
The acrid herbage oft corrodes his hands.
Scott. Amœbæan Eclogues, Ecl. 2.

GRI'DELIN. Fr. *Gris-de-lin*, a colour, so called from its resemblance to the flower of flax, (*lin*.) Menage; who adds, the modern Greeks call it Λειλιακι, (*lilac*,) from its resemblance to the flower of the *lilac*.

The ladies dress'd in rich symars were seen
Of Florence satin, flower'd with white and green,
And for a shade betwixt the bloomy *gridelin*.
Dryden. The Flower & the Leaf.

GRI'DIRON. *Craticula ferrea*, q.d. *grate* iron, (Skinner.) The Fr. *Grille*; It. *Graticola*, Menage derives from *craticula*, a diminutive of *crates*. Dr. Jamieson (in v. *Graddan*,) thinks that in the Eng. *Gridiron*, traces of the Sw. Goth. *Graedda*, igne torrere, are to be found. Our *grid* is not improbably a corruption of the Fr. *Grille*, from which language our terms in cookery, and names of the utensils are principally borrowed.

Loked up to oure Lorde, and aloud seid
God of thy gĕ, hevene gates opene.

There is, without all peradventure, something more *grievous* and corroding to the mind of man, from his being conscious that he has actually committed the sin he suffers for, than in all the sharpest and most afflicting impressions of pain, of which that suffering, as to the matter of it, does consist.—*South*, vol. ix. Grief is sometimes considered as synonymous with sorrow; and in this case we speak of the transports of *grief*. GRI'FFIN.
GRY'PHIN, or
GRI'FFON.

Fr. *Griffon*; It. *Griffone*, Dut. *Griffoen*; Sp. *Grifo*; Lat. *Gryphus* and *gryps*. "The word Γρυψ or *gryps*," (says Sir T. Brown) "sometimes mentioned in Scripture and frequently in humane authors, properly understood, signifies some kinde of eagle or vulture; from whence the epithete *grypus*, for an hooked or aquiline nose." Vossius calls it *avis fabulosa*, having its name *ab adunco rostro*. Kilian says, q.d. *Grup-hoen*; but it is not a creature of northern invention. See GRIPE.

GRIGG. A very small eel; and Skinner says, he knows not whether from *Crycce*, a crooked staff, from some resemblance of the one to the other; or from *Crecca*, a creek or bay, because these eels frequent such places. The A. S. *Wrigan* (in old English, to *wrie*) is to cover, the diminutive of which is *wriggle*; and by the name *riggle*, is a small sand eel known on some parts of the coast, probably so called from the quickness with which it *wriggles* or covers itself under the sand, when attempted to be caught. The usual prefix *ge* forms *ge-wrig-an*, which by contraction would become *grig*; and thus the word, as applied to the fish, may be accounted for; and from the quickness, nimbleness, liveliness of this fish may have arisen the phrase, *As merry as a grig*. But see GREEK, for a more probable explanation of this phrase.

A merry *grigge*, a locande frend,

Bp. Horsley. Speech. July 23, 1804.

GRI'STLE. } A. S. *Gristle, grisle*, cartilago.
GRI'STLY. } Skinner thinks it may be from the Lat. *Crustula*; since cartilage is hard, *instar crustæ*; more probably a dim. of *grist*, (qv.) that which may be crushed, is easily crushed: opposed to the strength and hardness of *bone*. See the quotation from Holinshed.

The eare cutte off was a wounde more subiecte to the obloquie and ill speakyng of the people, than it was daungerous for the life or bodie: but yet neuertheiese a wounde vncurable, because the *gristle* of the earepiece beeyng once cutte in twoo, cannot close ne growe together agayne.

Because the barre was awaie that should haue made it fast, she [Catherine Douglaase] thrust her arm in the place where the bar should haue passed; she was but young, and her bones not strong, but rather tender as a *gristle*, and therefore her arm was soone crasht in sunder, and the doore broken vp by force.—*Holinshed. Scotland. James I.* an. 1435.

In each of the fingers, for example, there are bones, and *gristles*, and ligaments, and membranes, and muscles, and tendons, and nerves, and arteries, and veins, and skin, and cuticle, and nail.—*Bentley*, Ser. 3.

The reader need not be told, that these intervening cartilages are *gristles*; and he may see them in perfection in a loin of veal.—*Paley. Natural Theology*, c. 8.

GRIT. } A. S. *Greot, gritta*; Dut. and
GRI'TTY. } Ger. *Greet*; Sw. *Gryt*, from the
GRI'TTINESS. } Ger. *Grutten*, (Serenius,) or *grüsen*, (Wachter,) comminuere, to crush. It appears to be the same word as *grist* (the *s* dropped) differently applied.

Somner calls the A. S. *Gritta*, "Bran, scurfe, *grit*, draffe; any dust or powder made by sawing, filing, grating, grinding, &c." *Grit* is generally applied to—

Small particles of stone, or hard dirt. *Grits* or *groats*,—

The grain of oats with the husk scaled or shelled off.

For there is a certain earth resembling a kind of tough clay, which they call white lome; this being intermingled with gravell or *gritty* sand is so hard baked together, that there is no dealing with it.

GROAN, *v.* } A. S. *Gran-an*; Dut. *Gronen, gemere*; formed, I believe, says
GROAN, *n.* } Skinner, from the sound; for

Lovely indeed; if tall and shady groves,

GROVE. } Also written by our old writers, GRO'VE. } *greves*. (And see GREAVES.) A. S. *Græf, græfe, grove*, (lucus), Junius thinks may be from the (A. S. *Graf-an*) Dut. *Graben*, fodere, because they are frequently protected by a *ditch*, thrown up around them; more probably because a *grove* is cut out, hollowed out of a thicket of trees: it is not the thicket itself. The Lat. *Nemus* (*locus pascuus*) is not the *silva*; though these distinctions are not preserved either in Latin or in English. And *grove* is applied to—

The wood, the thicket itself, as well as to the hollow way or passage between or among the trees; the open or hollow place or part surrounded by them.

It was originally governed by a *guild* and *guild-master*; which were the origin of corporations, and took rise before the time of the conquest, the name being Saxon, signifying a *fraternity*, which unites and flings its effects into a common stock, and is derived from *gildan*, to pay. A *guild* was a public feast, to commemorate the time of the institution; and the *guild-hall* the place in which the fraternity assembled.—*Pennant. Journey from Chester. Lichfield.*

Gild signified among the Saxons a fraternity, derived from the verb *gildan*, to pay, because every man *paid* his share towards the expenses of the community. And hence their place of meeting is frequently called the *guild* or *guildhall*.

Belgis, *Wichelen, wichelen*," (Somner.) From *wiglian* we have to *wile*; the usual prelix *ge* forms *ge-wiglian*, whence we have *guile*. "In the A. S. *Wiglian, be-wiglian, ge-wiglian*, means to conjure, to divine, and, consequentially, to practise cheat, imposture, and enchantment," (Tooke.)

To *guile*, to cheat, to impose upon, to deceive, to delude; to practise delusion, give a false colour or appearance to.

"Guilt is *ge-wig-led, guiled, guil'd, guilt*, the past part. of *ge-wiglian*: and to find *guilt* in any one, is to find that he has been *guiled*, or, as we now say, *beguiled*; as *wicked* means *witched* or *bewitched*. To pronounce *guilt* is to pronounce wicked." *Guilt*, in our legal proceedings, is ascribed to the instigation of the devil. A *guilty* man, then, is—

One who has been *beguiled*—to do wrong, to do evil, commit injustice or iniquity, wickedness; a crime, a sin: one who has done so; without reference to the *guile* or deception.

First, never in any case to act contrary to the perswasion and conviction of our conscience. For that certainly is a great sin, and that which properly offends the conscience and renders us *guilty*; *guilt* being nothing else but trouble arising in our minds, from a consciousness of having done contrary to what we are verily perswaded was our duty: and though perhaps this perswasion is not always well grounded, yet the *guilt* is the same so long as the perswasion continues; because every man's conscience is a kind of God to him, and accuseth or absolves him according to the present perswasion of it.—*Tillotson*, vol. i. Evelyn (*Memoirs*, vol. i. p. 170) states that he saw an instrument of destruction in use at Naples, which he calls "a frame, like ours at Halifax."

GUN, *v.* }
GUN, *n.* }
GU'NNER. }
GU'NNERY. }
GU'NNAL, or GU'NWALE. }
GU'NSTER. } *Gun*, the noun, formerly written *Gon*, is the past part. of *Gynian*, hiare, (to yawn, Tooke.) Minshew derives from the Lat. *Canna*, (whence *Cannon* in Eng. Fr. and It.) Junius from Κοναβος, *strepitus*. It is undoubtedly, as Selden observes, an old word with a new application; and receiving this application from what Drummond in his madrigal, *The Cannon*, calls her *gaping throat*. Milton uses expressions equally characteristic, "their mouths *gaping* with hideous orifice," and "those deep throated engines." It is literally a *yawning* engine: and distinguished by Chaucer from other *gyns* or engines, in the passage quoted by Tooke.

They dradde non assaut
Of gynne, *gonne*, nor skaffaut.—*Chaucer. Rom. of the R.*

I must in the first place observe, that the words *gunner* and *gunster* are not to be used promiscuously; for a *gunner*, properly speaking, is not a *gunster*; nor is a *gunster*, *vice versâ*, a *gunner*: they both, indeed, are derived from the word *gun*, and so far they agree.—*Tatler*, No. 88.

The Parliament had done very wisely, in the entrance into the war, to engage many members of their own in the most dangerous part of it, that the nation might see that they did not intend to embark them in perils of war, whilst themselves sate securely at home out of *gun-shot*, but would march with them where the danger most threatened.

HA'GGARD, *n.* HA'GGARD, *adj.* } Fr. *Hagard*, from *vagardus*; *vagus, vagardus, hagard*, (Menage.) And Skinner, *wagard*, a *vagando*; or from A. S. *Hæg*, a hedge, because—non domi, sed foris, (sc.) in sepibus agitat. *Haggard*, the *adj.*, Skinner (who writes it *hagger*) thinks may be from the Ger. *Hager*, macer; or, as Wachter interprets it, *gracilis, macilentus*, or from *hagard*, the *n.*, a kind of falcon. And a French writer, quoted by Pennant, says, that *hagar* is a Hebrew word, and signifies *stranger*.

Fr. *Hagard*, "wild, strange:" in English also applied to the countenance or features; spare and harsh, lengthened, distorted, with fatigue, with anxiety, or other strong feeling; and it may have been formed upon the preceding verb, *to hag*; thus,—*Hag, hagger, haggered, hagger'd*, or *haggard*. HALF, *v.* } Mr. Tyrwhitt says,—"A side, a part; a Goddes *half*, on God's part, with God's favour. A' this *halfe* God. On this side of God. Four *halves*, four sides." Goth. *Halbs;* A. S. *Half, healfe;* Dut. *Halfe, halve;* Ger. *Halb;* Sw. *Half.* The A. S., Ger., and Swedish, as well as the old English, are not only applied to *dimidium*, but also to *latus, ora*, a side, a coast. *Dimidium totius alterum* quasi *latus* constituit, (Ihre,) who suspects it to come from some northern word signifying to cleave or split, to divide. As used in English—

HALF, *n.* } HALF, *ad.* } HA'LFER. } HALVE, *v.* }

To *halve* is,—to divide into *two* equal parts, or shares; into moieties: to divide, to share, to part; to take or do part; and, thus, in the second quotation from Ascham, applied to the partial obedience of Saul. In Gower, *Haluyng of scorne*, seems to be a rendering of *quasi deridens, as if in scorn;* with a degree, an appearance of scorne.

Half is much used—prefixed.

To hold, to stop or stay; (met.) to hesitate; to stop or stay in the gait, in the free action of the limbs, and, thus, to limp.

HANK, *n.* } Lye thinks may be from the Isl. And as for sensuality, though it cannot be supposed that a soul should retain the appetites of the body, after it is separated from it; yet having wholly abandon'd itself to corporeal pleasures while it was in the body, it may, and doubtless will retain a vehement *hankering* after the reunion with it, which is the only sensuality, that a separated soul is capable of.—*Scott. HAP. Skinner says,—a very common word in Lincolnshire, from A. S. *Heapian*, cumulare, q.d. stragulis cumulare: and Ray—

Happing,—a coarse covering, a rug for a bed.

Hapharlot,—a coarse covering made of divers shreds, (Baret's *Alvearie*.) Skinner doubts whether the word be nostrum linguæ civis. *Hapharlot*, a coverling for a servant, is a very old word, (Brocket.)

HAP, *v.* } Wachter has, *Happen*, which
HAP, *n.* } he interprets—contingere, accidere, bene vel male succedere; and remarks that the English preserve the word. The Ger. and Dut. have *Happeren*, prendere, apprehendere, to seize or take in the hand. Fr. *Happer*, to catch; which latter Menage derives from the Lat. *Capere*. The suggestions of Skinner leave the English word quite uncertain. It probably is the Goth. and A. S. *Hab-an*, to *have* or hold; and, consequentially, to take or catch hold: and thus, *hap* will signify, any thing *had*; and (as *luck* also does) any thing *caught*. See HARNAR.

An exile, meanly forc'd to beg support
From the slow bounties of a foreign Court.

Meantime for others of heroic note,
I waited in the lists of ancient fame
Enroll'd illustrious, and had *haply* seen

Fenton. Homer. Odyssey, b. xi. *In Milton's Style.*

In such cases, and by the help of such qualities as these, it is possible, I grant, and sometimes *happens*, that men have gone out of the world, as they lived in it, defying conscience, and the power of it, and deriding the flames of hell, 'till they were in the midst of them.
Atterbury, vol. iv. Ser. 4.

O *Happiness!* our being's end and aim!
Good, Pleasure, Ease, Content! whate'er thy name:
That something still which prompts th' eternal sigh,
For which we bear to live, or dare to die,
Which still so near us, yet beyond us lies,
O'erlook'd, seen double, by the fool and wise:
Plant of celestial seed! if dropp'd below,
Say, in what mortal soil thou deign'st to grow.
Pope Essay on Man, Ep. 4.

Her pencil drew whate'er her soul design'd,
And oft the *happy* draught surpass'd the image in her mind.
Dryden. To Mrs. Ann Killegrew.

Though the proposition (to be careful for nothing) be so worded as to seem to forbid all manner of carefulness, yet it means nothing less. Indeed it is impossible to live without caring, at least to live *happily*.—*Sharp*, vol. iv. Ser. 1.

With these fine fancies, at *hap hazard* writ,
I could make verses without art or wit.
Butler. Satire to a Bad Poet.

Haply some hoary headed swain may say,
Oft have we seen him at the peep of dawn,
Brushing with hasty steps the dews away,
To meet the sun upon the upland lawn.
Gay. Elegy written in a Country Church-yard.

When four different persons are called upon in a court of justice to prove the reality of any particular fact that *happened* twenty or thirty years ago, what is the sort of evidence which they usually give? why, in the great leading circumstances, which tend to establish the fact in question, they in general perfectly agree.—*Porteus*, vol. i. Lect. 2.

The word *happy* is a relative term; in strictness, any condition may be denominated *happy* in which the amount or aggregate of pleasure exceeds that of pain; and the degree of *happiness* depends upon the quantity of this excess.
Paley. Moral Philosophy, b. i. c. 6.

In your old states you possessed that variety of parts corresponding with the various descriptions of which your community was *happily* composed, you had all that combination, and all that opposition of interests, you had that action and counteraction, which, in the natural and in the political world, from the reciprocal struggle of discordant powers, draws out the harmony of the universe
Burke. On the French Revolution.

The above account of human *happiness* will justify the two following conclusions, which, although found in most books of morality, have seldom, I think, been supported by sufficient reasons. First, that *happiness* is pretty equally distributed amongst the different orders of civil society. Secondly, that vice has no advantage over virtue, even with respect to this world's *happiness*.
Paley. Moral Philosophy, b. i. c. 6

One who knew him not so well as I do, would suspect this was done to serve a purpose. No such matter, 'twas pure *hap hazard*.—*Warburton. Divine Legation*, b. vi. Notes.

HARA'NGUE, *v.* } Skinner writes *Harang.* It. *Aringa, arringo;* Fr. *Harangue;* Fr. verb *haranguer.* Skinner thinks it may be from the Eng. *Ring*, because assemblies of auditors were held in *rings* or circles. "The word (says Tooke) is merely the pure and regular past part. *Hrang*, of the A. S. verb, *Hring-an*, to sound, or make a great sound. (As *hrino* is also used.) And M. Caseneuve alone is right in his description of the word, when he says, '*Harangue* est un discours prononcé avec *contention* de voix.'" (*Diversions of Purley*, ii. 274. And see *Menage* on the Fr. and It. nouns; and *Junius*, in v. *rank.*) To *harangue*, then, is—

To speak aloud, in a loud, sounding voice.

The author of the *Ecclesiastical Politie* had in so many books of his own indeavoured to *harangue* up the nation into fury against tender consciences.

And though amongst the antient Romans, men were not forbidden to deny, that which in the poets is written of the pains and pleasures after this life; which divers of great authority and gravity in that state have in their *harangues* openly derided; yet that belief was always more cherished than the contrary.—*Hobbs. Of Man*, pt. i. c. 12.

What act is more instructive to the people, than any arguments drawn from the title of sovereign, and, consequently, fitter to disarm the ambition of all seditious *haranguers* for the time to come.—*Id. Behemoth*, pt. iv.

For th' opportunity t' *harangue;*
And rather on a gibbet dangle,
Than miss his dear delight, to wrangle.
Hudibras, pt. iii. c. 2.

Goth. *Haran*; A. S. *Heard*; Dut. *Hard*; Ger. *Hart*; Sw. *Heard*; from the A. S. *Heard-ian, aheard-ian, ahyrdan*; durare, indurare, durescere, indurescere. "*Hard*, as applied to material substances, (says Locke,) is opposed to *soft*, that being generally called *hard* by us, which will put us to pain sooner than change figure by the pressure of any part of our bodies; and that, on the contrary, *soft*, which changes the situation of its parts upon any easy and unpainful touch. *Hardness* consists in a firm cohesion of the parts of matter making up masses of a sensible bulk, so that the whole does not easily change its figure." (*On Hum. Underst.* b. ii. c. 4. s. 4.) Hence its numerous consequential applications, as opposing or resisting the motion of its own parts; generally, as opposing or resisting, bearing, suffering or enduring; and thus,—

1. Difficult; or that can or may not (easily) be done, (&c.) be compressed, separated, penetrated, bent, broken, as, steel is *hardest*; (met.) Impenetrable, insensible, stupid.

2. Difficult; or that cannot (easily) be done or performed by labour or skill; be understood, be learned, as Greek is *hardest* to come by: a *hard* task, a *hard* road or way;—difficult, laborious, toilsome.

3. Difficult; to be borne or suffered, as a *hard* saying, a *hard* season, a *hard* case; harsh, rough, rigorous, severe, unjust; *hard beer*, harsh, rough; a *hard trot*, harsh, violent.

4. Difficult; to be moved, or acted upon; as a *hard* man, a *hard* heart; a man not easily acted upon or moved by kind or good feelings; and therefore, unkind, harsh, severe, austere, grinding, oppressive.

Touching musicall *harmonie*, whether by instrument or by voyce, it being but of high and low sounds a due proportionable disposition, such notwithstanding is the force thereof, and so pleasing effects it hath in that very part of man which is most diuine, that some haue beene thereby induced to thinke that the soule it selfe by nature is, or hath in it *harmony*.—*Hooker. Ecclesiasticall Politie*, b. v. § 38.

The composer should fit his musick to the genius of the people, and consider that the delicacy of hearing, and taste of *harmony* has been formed upon those sounds which every country abounds with: in short, that musick is of a relative nature, and what is *harmony* to one ear, may be dissonance to another.—*Spectator*, No. 29.

Musick belongs, as a science, to an interesting part of natural philosophy, which, by mathematicall deductions from constant phenomena, explains the causes and properties of sound, limits the number of mixed, or *harmonick*, sounds to a certain series, which perpetually recurs, and fixes the ratio which they bear to each other, or to one leading term.—*Id. Musical Modes of the Hindus.*

As *harmony* is the end of poetical measures, no part of a verse ought to be so separated from the rest as not to remain still more *harmonious* than prose, or to show, by the disposition of the tones, that it is part of a verse.

Say what thou wilt, I shal it never telle
To child ne wif, by him that *harwed* helle

Chaucer. The Millers Tale, v. 3512.

And it may bee iustly suspected, by the proceedings following, that as the king did excell in good common wealth lawes; so neuertheless hee had (in secret) a designe to make vse of them, as well for collecting of treasure, as for correcting of manners; and so meaning thereby to *harrow* his people, did accumulate them the rather.

Every *harrower* was allowed a brown loaf and two herrings a day.—*Blount. Ancient Tenures*, p. 143.

While any dregs of this baneful system remain, you cannot justly boast of general freedom: it was a system of niggardly and partial freedom, enjoyed by the great barons only, and many-acred men, who were perpetually insulting and giving check to the king, while they racked and *harrowed* the people.—*Sir W. Jones. On the Reformation of Parliament.*

Thy weedy fallows let the plough pervade,
Till on the top th' inverted roots are laid,
There left to wither in the noon-tide ray,
Or by the spiky *harrow* clear'd away.

Our version of this place would have been more accurate, and more strictly conformable to the original, if it had rendered the passage thus: he put them to saws and to *harrows* of iron, and to axes of iron, and made them pass by, or to the brick kilns, that is, he put them to hard labour, with the tools, and in the places here specified

To lay waste, to plunder; and as the Fr. *Harier*,—to tire or toil out, to weary or wear out; to vex, to disquiet.

Donne. Funeral Elegy on his Wife.

Simple sounds please by equality, as the sound of a bell or lute; unisonancy as it seems, an equality continued by the percussion of the object upon the ear, is pleasure; the contrary is called *harshness*, such as is grating, and some other sounds, which do not always affect the body, but only sometimes, and that with a kind of horror by setting at the teeth.

But it is not, perhaps he will pretend, for to assuage a private passion, or to promote his particular concernment, that he makes so bold with his neighbour, or deals so *harshly* with him; but for the sake of orthodox doctrine, for advantage of the true church, for the advancement of publick good, he judgeth it expedient to asperse him.
Barrow, vol. I. Ser. 18.

This (delight in beholding torments) has been the raging passion of many tyrants, and barbarous nations; and belongs, in some degree to such tempers as have thrown off that courteousness of behaviour which retains in us a just reverence of mankind, and prevents the growth of *harshness* and brutality.

Harsh-sounding cataracts responsive roar;

HA'RSLET. } Fr. *Hastilles*, the inwards of a
HA'SLET. } beast; as an hog's-*haslet*, calf's gather, sheep's pluck, &c. (Cotgrave.) Skinner is inclined to derive this Fr. *Hastilles* (Lye seems strangely to doubt the existence of the word) from the Fr. *Haste*, a spit; because these intestines were usually fastened together, and in that state dressed or cooked upon a *spit*. And see *Hatille* in Menage.

The Romans came to that excess, that the laws forbad the usage of hogs-*horslet*, sweetbreads, cheeks, &c. at their publick suppers.—*King. Art of Cookery*, Let. 9.

Their *haslets* are equal to that of a hog, and the flesh of some of them eats little inferior to beef-steaks.

They [the horns of the stag] abound in ammonia, which is the basis of the spirit of *hartshorn*; and the remains (after the salts are extracted) being calcined, become a valuable astringent in fluxes, which is known by the name of burnt *hartshorn*.—*Pennant. British Zoology. Deer.*

HA'RVEST, *v.* } A. S. *Hærfest*, which Wach-
HA'RVEST, *n.* } ter derives from the Goth. *Ar*, annona, and A. S. *Fon*, capere. Dr. Th. H., in Skinner—from *Hertha*, whom the ancient Germans worshipped pro *Vesta*, and *feast*, q.d. Vestæ seu Terræ, festivitas, seu dies festi. Skinner himself is inclined to *herba* and *festum*, q.d. *Festum* seu festivitas *herbarum*. The A. S. *Har-ian*, canescere, to grow or become *hoary*, and *westmian*, fructificare, to bear or produce fruit, (expressing by their composition, the whitening, and, consequentially, the ripening of the fruits of the earth,) seem to present a plain and satisfactory etymology. *Harvest*, then, will first be used to signify,—

Ripened corn; and be, then, applied to the season for the ripening and reaping of corn; to the gathering of any produce, of any thing produced or gained; to the produce or gain itself.

Harvest is much used—prefixed.

So that thys due adde agen *herwest* al gare

He held a knife-hook.—*Spenser. Faerie Queene*, c. 7.

And fill out the blank bowl of blythe to their song.
And let them be merry all *harvest* time long.
Once ended thy *harvest*, let none be beguiled—
Please such as did help thee—man, woman, and child.
Tusser. August. Husbandry.

Came there a certaine lord, neat, trimly dreat;
Fresh as a bride-groome, and his chin new reapt,
Shew'd like a stubble land at *harvest-home*.
Shakespeare. 1 Pt. Henry IV. Act i. sc. 3.

And thus of all my *harvest-hope* I have
Nought reaped but a weedie crop of care.
Spenser. Shepheard's Calender. December.

——— Think, oh, grateful think!

HASK. The Glossarist to Spenser says, "A *haske*, is a wicker ped (basket) wherein they use to carry fish." Mr. Todd, in his note upon the passage, cites an instance of the usage of the word from Davison's *Poems*. Dr. Jamieson thinks it may be from the Sw. *Hwass*, a rush.

But nowe sadde winter welked hath the day,
And Phœbus, wearie of his yearly taske,
Ystabled hath his steedes in lowly lay,
And taken up his ynne in fishes *haske*.

Now during that ninth yeare (whiles the inundation of the lake continueth) these canes prove so hugge and strong withall, that they serve for *hawking poles*, and fowlers' pearches.—*Holland. Plinie*, b. xvi. c. 36.

——— He fled in feare the hand
Of that feare master, who *hauk like*, ayres swiftest passenger,
That holds a timorous dove in chace, and with command doth beare
His fierie onset: the dove hastes, the *haucke* comes whizzing on,
This way, and that, he turnes and windes, and cuffes the pigeon,
And till he trusse it, his great spirit lays hot charge on his wing. *Chapman. Homer. Iliad*, b. xxii.

But if it should prove (as I find some men think) that we live only by the day; and content ourselves to patch up things as they break out, and to fly at the game as it rises, it is at the best but like birding or *hawking*, which may furnish a dish or two, but can never keep the house.
Sir W. Temple. To my Lord Arlington, Dec. 1669.

I remember at one time the taking of tobacco, at another the drinking of warm beer, proved for universal remedies; then swallowing of pebble stones, in imitation of falconers curing *hawks*.—*Id. Of Health & Long Life.*

At that rate your pretensions would parallel his mirth, who boasted a descent from the first Cæsars barely upon his being (like the most of them) almost deformedly *hawk nosed*, deriving his interest in their blood, only from his sympathy with their defects.—*Boyle. Works*, vol. vi. p. 14.

The Earl of Pembroke hath been forgotten, who abhorr'd the war as obstinately as he loved hunting and *hawking*, and so was like to promote all overtures towards accommodation with great importunity.
Clarendon. The Civil War, vol. i. p. 122.

In the 34 of Edward III. it was made felony to steal a *hawk*; to take its eggs, even in a person's own ground, was punishable with imprisonment for a year and a day, besides a fine at the King's pleasure.
Pennant. British Zoology. Falconry.

The hooked beak of the *hawk tribe* separates the flesh from the bones of the animals which it feeds upon, almost with the cleanness and precision of a dissector's knife.
Paley. Natural Theology, c. 12.

HAWK, *v.* } *Hawkers* (says Skinner) are so
HA'WKER. } called, because like *hawks*, wandering about, they hunt for gain or prey. The Ger. *Hoker*, Wachter calls *propola*, a retailer, and derives it from Ger. *Auchen*; A. S. *Eacan*, augere, to increase, because he sells for more than the first traders, or vendors. As *hawkers* carry their wares from place to place, and cry them for sale, to *hawk* is, consequentially,—

To carry about, from place to place; to expose to sale, to public view.

To *hawker* is used by Butler.

That [Act] against pedlars and *hawkers*, &c. will have its second reading to-morrow.—*Marvell. Works*, vol. i. p. 230.

He calls it a seditious paper,
Writ by another patriot Drapier;
Then raves and blunders nonsense thicker
Than aldermen o'ercharg'd with liquor;
And all this with design, no doubt,
To bear his praises *hawk'd* about.
Swift. A Friendly Apology.

But was implacable and awkward

Hudibras, pt. iii. c. 3.

They seem, indeed, to have been a very poor mean set of people, who seemed to travel about with their goods from place to place, and from fair to fair, like the *hawkers* and pedlars of the present times.
Smith. Wealth of Nations, b. iii. c. 3.

These people are like the *hawkers* in the street, they disperse whatever comes to their hand, good or bad; if it be but news, it is all one to them, by which means they often do a great deal of mischief, without being chargeable with any formed malice or design to injure.—*Sherlock*, Dis. 36.

HAWK, *v.* } *Hawk*, Skinner thinks, from the
HA'WKING, *n.* } Ger. *Hauchen*, spirare, which he and Wachter agree is, *vox a sono ficta*; a word formed from the sound.

To force up or eject any thing noisily from the throat.

1 *Pa.* Shal we clap into 't roundly, without *hawking*, or spitting, or saying we are hoarse, which are the onely prologues to a bad voice.
Shakespeare. As You Like It, Act v. sc. 3.

As, when shall I enjoy God as I used to do at a conventicle? when shall I meet with those blessed breathings, those heavenly hummings, and *hawings*, that I used to hear at a private meeting, and at the end of a table.

Said commonly it is, that if a man do set an hedge or *hay* thereof round about a grange or ferme house in the countrey, there will no kites nor hawks, nor any such ravening birds of prey, come neare.—*Id. Plinie*, b. xxiii. c. 1.

HAY. To dance the *hay*, (says Skinner,) from the Fr. *Hay*, a *hedge*, (or *hay*,) in orbem ad figuram *sepis* choreas ducere; to dance in a circuit to the form or figure of a *hedge* or *hay*. (See Heydigyes.) The French have a dance which they call *Olivettes*, because performed after the gathering of the *olives*; the *Hay* may take its name from a similar custom upon getting up the *hay-harvest*.

Dryden. Annus Mirabilis, 1666.

Hence passionate and unreasonable men ignorantly call it courage, to *hazard* their lives in their own private quarrels; where contempt of danger is, on the contrary, neither reasonable nor just; because, neither is the danger at all needful to be run into, nor is the benefit proposed to be obtained by it, in any manner equal to the evil *hazarded*.
Clarke, vol. i. Ser. 51.

HA'ZY. } *hazy* weather, *aer* nebulosus et
HA'ZINESS. } caliginosus, a cloudy and gloomy atmosphere; and suggests the Ger. *Hassen*, to *hate*; from the disagreeableness of such weather. It is not improbably from the A. S. *Has-ian*, to be *hoarse*, (the *r* has not been intruded either into German, Dutch, or Swedish,) *hoarse* being applied to the *thickness* of the voice, and *haze*, to the *thickness* of the atmosphere. To *haze*, then, will mean,—

To thicken, to become cloudy or gloomy; (sc.) threatening rain; to misle, to drizzle.

In the morning *hazy* weather frequently, and thick mists.
Dampier Voyages, an. 1684.

But instead of encouraging us to trust ourselves to the *haze* and mists and doubtful lights of that changeable week, on the answerable part of the opposite page, he [Rider] gives us a salutary caution.

S. *Hæsel*, galerus, a hat: and that, from the calyx, the fruit and the tree receive their name. The A. S. *Hæsel*, he seems to consider as a derivative (or diminutive) of *hæt*, a *hat*, (qv.)

Hazel, hazelly, (applied to colour, e. g. *hazel* mould, *hazelly* loam,) the colour of the *hazel-nut*, that is, brown, of a light brown.

A ring (qd. he) ye *hazel* wodes shaken.
Chaucer. Troilus, b. iii.

As for other nuts, their meat is solide and compact, as we may see in filberds and *hazels*, which also are a kind of nut, and were called heretofore Abellinæ, of their native place, from whence came good ones at first.

HE. Goth. *Ha*; A.S. *He*; Ger. *Hee*; Dut. *Hy*; Sw. *Han*. As the pronoun *it* (qv.) so *he* is, by our old writers, applied to the feminine and neuter, as well as to the masculine, and to the plural as well as to the singular. *He* is no doubt from a similar, if not from the same, source with *it*, or *hit*, or *het*, (for so was the word anciently written,) and had, as *it* had, one uniform meaning, warranting the usages to which it has been applied. Tooke has shown *it*, *the*, and *that* to have such uniform meanings; and from the principle he has established, a necessary consequence is that the other pronouns had one also. *The* and

that he contends to be parts of the same word, the A. S. *The-an*, to *the*, to get, to take, to assume; the first being the imperative, the second the past part. of that verb. *It*, or *hit*, or *het*, he considers to be the past part. of the A. S. *Hat-an*, nominare, and to mean, nominatum, *the said*; a meaning perfectly corresponding with every use of the word *it* in our language. A conjecture, at least, may be admitted, that *he* may have been formed from some part of the same word, as their application and usage were precisely the same, and the difference between them *now* is no more than what arises from their being restricted grammatically, *he* to words masculine, and *it* to words neuter. Mr. Tyrwhitt has noticed some of the (to modern ears) peculiar usages of *he*;—that it is frequently used in all its cases for *it*.

Goth. *Hairto*; A. S. *Heorte*; Ger. *Herz*; Dut. *Hert*; Sw. *Hierta*. Stiernhelmius (says Wachter) deduces all from the Swedish verb *Hyra*, (or *horra*, or *huera*,) movere, to move; (to *hurry*;) on account of the perpetual *motion* and agitation of the *heart*. Wachter adds, that he finds no such root apud Saxones et Francos. (See *Wachter* in vv. *Herz*, and *Horen*, agere.) Junius tells us,—some think that *heart* is derived from *herd*, i. e. hard, *durus*, because we owe the *duration* of life to the continued motion of the *heart*. Wachter remarks, that the Gr. Κτορ, and the A. S. *Heorte*, are by metathesis interchangeable. *Heart*, the noun, is applied to—

The seat or source of the passions, feelings, thoughts, affections; to these themselves; to the being in whom they exist; to the vital part;—vitality, life, spirit, courage, strength; to the central, or chief, or principal part; the seat or source of good and ill. To *heart*, or *hearten*, is—

To encourage, to animate, to invigorate; to give or add life, spirit, courage, strength.

Hearted,—seated, deeply fixed, stored, treasured in the *heart*.

HEARTH. A. S. *Hearthe*, *hearth-pening*.—*Hertha*, or *Herthus*, i. e. The obscenity, ribaldry, amorousnesse, *heathenishnesse*, and prophanenesse of most play-bookes, Arcadias, and fained histories that are now so much in admiration, is such, that it is not lawful for any so much as once to reade them.
Prynne. Histrio Mastix, pt. ii. Act iv. sc. 1.

Hence, therefore, we see the desire of children is honest and pious; if we be not less zealous in our Christianity than Plato was in his *heathenism*; who, in the sixth of his laws, counts offspring therefore desireable, that we may leave in our stead sons of our sons, continual servants to God.
Milton. Tetrachordon.

It has always been my thought, that *heathens* who never did, nor without miracle could, hear the name of Christ, were yet in a possibility of salvation.
Dryden. Preface to Religio Laici

Who [the living God] in times past suffered all nations to walk in their own ways: Πάντα τα ἐθνη, not all nations, but all the *heathen*, (the word *heathen* comes from ἐθνη) all the Gentiles, distinguished from the Jews, as the same words are translated Rom. xv. 11. and 2 Tim. iv. 17. and ought to have been so, Rom. i. 5. and 16. 26. but much more in our text [Acts xiv. 15. &c.] which according to the present version seems to carry a very obscure, if not erroneous meaning.—*Bentley*, Ser. 6.

All religions, whether true or false, not only those of Moses and Christ, but even the *heathenish* superstitions of every kind, have, at their first setting out, endeavoured to countenance themselves by real, or pretended miracles.
Atterbury, vol. iii. Ser. 8.

For the other sort of new converts, they were such as had been converted from *heathenism* and idolatry, and consequently looked upon every thing in use among these *heathens* with a suspicion and a jealousy so strong, that, considering the wickedness of human nature, it was impossible presently to remove it.—*South*, vol. iii. Ser. 5.

The continuance of these unscriptural terms, without an exact application of them in sermons and catechisms, *heathenizes* all the common people, nay and great numbers of not unlearned persons.
Account of Mr. Firmin's Religion, 1698, p. 63.

A professed Christian preacher, addressing a professed Christian audience, should remember, that, however beautiful his discourse, if it is no more than a moral discourse, he may preach it, and they may hear it, and yet both continue unconverted *heathens*.—*Knox. Essays*, No. 174.

It was a custome among the Jews when they travelled into any foreign country, to shake the dust off their feet when they returned home, lest they should pollute their own holy ground with the soil of a *heathen* country.
Gilpin, vol. iv. Ser. 29

They [certain passages of scripture] have been forcibly detached from the connections, which rendered them peculiarly applicable: have been made the subjects of disputation; have been converted into fundamental articles of faith: and that moral preaching, which they were adduced to enforce, has been stigmatized as a *heathenish* deviation from Christianity.—*Cogan. Theol. Disquis.* pt. iii. Conclus.

He [Enoch Wyat] altered and covered the King's statues, which during the troubles were thrust into Whitehall-garden, and which, it seems were too *heathenishly* naked to be exposed to the inflammable eyes of that devout generation.
Walpole. Anecdotes of Painting, vol. ii. c. 3.

When Julian attempted to set up preachers of *heathenism*, in opposition to those of Christianity, it was immediately foretold him, and the event verified the prediction, that what had proved so effectual to establish truth, would only serve to expose and ruin error.—*Secker*, vol. i. Ser. 21.

Whenever the place of torment is spoken of, the word *hell*, in the original, is always *Gehennah*: but when only the state of the dead in general is intended, 'tis always expressed by a quite different name, which though we render by the same word *hell*, yet its signification is at large the invisible state.—*Clarke*, vol. ii. guarded or *kept*. We use it both for *grex* and *pastor*." Junius inclines to the same *hyrd-an*, but thinks it (*hyrd-an*) may owe its origin to *hyrd-el*, crates, Eng. *Hurdle*, (qv.)

Spenser. Mother Hubberd's Tale.

The word *heresy* is Greek, and signifies a *taking* of any thing, particularly the *taking* of an opinion. After the study of Philosophy began in Greece, and the philosophers, disagreeing amongst themselves, had started many questions, not only about things natural, but also moral and civil; because every man *took* what opinion he pleased, each several opinion was called a *heresy*; which signified no more than a private opinion, without reference to truth or falsehood.

The other thing is, that *heretickes* and evil persons, to serve their ends, did not only pretend things spoken by the apostles, and apostolical and primitive men, (for that was easie,) but even pretended certain books to be written by them, that under their venerable names they might recommend and advance their own *heretical* opinions.

That saying of their father Cres. is still running in my head, that they may be dispensed with in their obedience to an *heretic* prince, while the necessity of the times shall oblige them to it for that, as another of them tells us, is only the effect of Christian prudence; but when once they shall get power to shake him off, an *heretic* is no lawful king, and consequently to rise against him is no rebellion
Dryden. Religio Laici, Pref.

He ignorantly and *heretically* held against the bishop, that the soul of man was of the substance of God, and so consequently that it was infinite; and the soul of the reprobate being damned, the substance of God should be damned.

A second offence is that of *heresy*, which consists not in a total denial of Christianity, but of some of its essential doctrines, publicly and obstinately avowed; being defined by Sir Matthew Hale, *sententia rerum divinarum humano sensu excogitata, palam docta et pertinaciter defensa.*
Blackstone. Commentaries, b. iv. c. 4.

The shining quality of an epic *hero*, his magnanimity, his constancy, his patience, his piety, or whatever characteristical virtue his poet gives him, raises first our admiration; we are naturally prone to imitate what we admire: and frequent acts produce a habit.—*Dryden. Æneis*, Ded.

An *heroic* poem, truly such, is undoubtedly the greatest work which the soul of man is capable to perform. HE'RON, or HERN. HE'RONSHEWS, or HE'RNSHEWES. HE'RONER. HE'RONRY. } Fr. *Héron*. The Italians (says Menage) call this bird *Aerone, airone, aghirone, angherona*, and *arghirone*; and the Sp. *Agrone*. Julius Scaliger derives the It. *Aerone* from the Lat. *Aerius*, aerial; and the Lat. *Ardea*, from Αερα δυειν, to go into the air. The Greek name of this bird is Ερωδιος; and Menage forms the Fr. *Héron* (after his manner) from this Greek name, and the It. and Sp. from the Lat. *Ardea*. His editor prefers the Ger. *Her*, high, lofty. *Hernsues* (says Skinner), *ardea* avis, still found in Lincolnshire, from *heron* and *sue*, for *pursue*, because this rapacious bird *pursues* other birds as well as fish. Mr. Tyrwhitt says,—*Heronceaux*, according to the *Glossary*; and calls them young *Herons*. And *heroner*, a hawk, made to flie only at the *heron*.

Their large, broad, concave wings, (in appearance much too large, heavy, and cumbersome for so small a body, but) of greatest use to enable them to carry the greater loads to their nests at several miles distance; as I have seen them do from several miles beyond me, to a large *heronry* above three miles distant from me
Derham. Physico-Theology, b. iv. c. 25. Note 25.

The *heron* usually takes his prey by wading into the water; yet it must not be supposed that he does not also take it upon the wing.—*Goldsmith. Animated Nature*, b. v. c. 5.

It was formerly in this country a bird of game; *heron-hawking* being so favourite a diversion of our ancestors, that laws were enacted for the preservation of the species: and the person who destroyed the eggs was liable to a penalty of twenty shillings for each offence. Not to know the hawk from the *heronshaw*, was an old proverb taken originally from this diversion; but, in course of time, served to express great ignorance in any science.

It is so plainly, so certainly affirmed in Scripture, that there is no place left for *hesitation*. For this is his precept, that we believe in the name of his Son Jesus Christ, and that we love one another
Bp. Taylor. Rule of Conscience, b. ii. c. 3. R. 14.

Paschasius Radbertus, who lived about eight hundred and twenty years after Christ's incarnation, so expounds the precept without any *hesitation*, *Bibite ex hoc omnes, i. e. tam ministri quam reliqui credentes*, Drink ye all of this, as well they that minister, as the rest of the believers.
Id. Dissuasives from Popery, pt. ii. b. ii. s. 4.

Of my being wont to speak rather doubtfully, or *hesitantly*, than resolvedly, concerning matters wherein I apprehend some difficulty, I have in another treatise (which may through God's assistance come abroad ere long, given a particular, and, I hope, a satisfactory account.

Irregular; not consistent with or conforming to rule, or order; disorderly.

There are strange *heteroclites* in religion now-a-days; among whom, some of them may be said to endeavour the exalting of the kingdom of Christ, in lifting it upon Beelzebub's back, by bringing in so much profaneness to avoid superstition.—*Howell*, b. iv. Let. 35.

Brown. Vulgar Errours, b. vii. c. 19.

I count it not irrational to think that things primary and *heteroclite*, as also by a parity of reason, some things immaterial and supernatural, may be sufficiently proved in their kind, if there be such a positive proof of them, as would be competent and satisfactory.—*Boyle. But such, it seems, was the temper of those times, that he was not only dispensed withal as to this, but also as to another *heterodoxy* of his, concerning the resurrection.
Cudworth. Intellectual System, p. 39.

This order, thus subjoined to the admonition, that was to be set up in every church, and so the more obvious to be read by all the priests and curates, as well as others, was doubtless to hinder raw and indigested *heterodox* preaching.

Wherefore, either the two little parts of different elements do not become one body; or if they do, we must agree 'tis by the nature of quantity, which works as much in *heterogeneal* parts as homogeneal.—*Digby. Of Bodies*, c. 14.

And the reason why iron comes to a loadstone more efficaciously then another loadstone doth, is, because loadstones generally are more impure then iron is (as being a kind of oar or mine of iron) and have other extraneous and *heterogeneal* natures mix'd with them, whereas iron receives the loadstone's operation in its whole substance.
Digby. Of Bodies, c. 20.

And there being no conceivable convenience at all in the *heterogeneity* of parts, I think the conclusion is not rash, if we averre that the immediate matter of efformation of the fœtus is either accurately homogeneal, or if there be any *heterogeneity* of parts in it, that it is onely by accident; and that it makes no more of the first work of efformation or organization of the matter, then those atomes of dust that light on the limner's colours make to the better drawing of the picture.—*More. Antidote against Atheism*, c. 2. s. 8. App.

Because it belongs to a multitude of associations, and seems to differ from texture, with which it hath so much affinity, as perhaps to be reducible to it, in this, that always in mixtures, but not still in textures, there is required a *heterogeneity* of the component parts.

For the characters which are called *hieroglyphicks* in Egypt, be in manner all of them, like to those precepts of Pythagoras: Eat not upon a stool or chair; Sit not over a bushell; Plant no date tree; stir not the fire in the house, nor rake into it with a sword.—*Holland. Plutarch*, p. 1051.

And upon the wals, hewed out of the very rockes, engraved many kinds of fowles and wild beasts, and infinite formes of other living creatures; which being not understood of the Latines, they called *hieroglyphicke* letters.

More admirable is that which they attest was found in Mexico and other places of the new world, where they *hieroglyphic'd* both their thoughts, histories, and inventions to posterity, not much unlike to the Egyptians, though in lesse durable and permanent matter.—*Evelyn. Sculptura.*

It well deserves considering that these ancient writers, in treating enigmatically upon the subject, have generally fixed upon the very same *hieroglyphick*, varying only the story, according to their affections or their wit.

Swift. Tale of a Tub. A Digression concerning Criticks.

This hairy meteor did denounce
The fall of sceptres and of crowns;
With grisly type did represent

Having thus proved the high antiquity of Egypt from the concurrent testimony of sacred and profane history; I go on, as I proposed, to evince the same from internal evidence; taken from the original use of their so much celebrated *hieroglyphics*.

The historian [Manetho] assures his reader, that he took his information from pillars in the land of Seriad, inscribed by Thoyth the first Hermes, with *hierographic* letters in the sacred dialect.—*Id. Ib.*

HI'EROPHANT. Gr. Ἱεροφαντες, from *Ἱερος*, sacred or holy, and *φαιν-ειν*, to declare or make manifest. See the quotation from Potter.

And herein the wantonness of poets, and the crafts of their heathenish priests and *hierophants* abundantly gratified the fancies of the people with superstructions and inventions of their own.—*Hale. Origin. of Mankind*, p. 244.

Yet so late as the age of Appolonius Tyan; the Eleusinian kept so clear of the first imputation, that the *hierophant* refused to initiate that impostor, because he was suspected to be a magician.—*Warburton. Divine Legation*, b. ii. s. 4.

HI'GGLE, *v.* HI'GGLER, *s.* HI'GGLING, *s.* } The Fr. *Harceler* (see HAGGLE) is derived (in Menage) from the Ger. *Harke*, a rake, which is itself from the A. S. *Raccian*, *hraccian*, to rake or scrape together, to collect, to accumulate; and *haggle*, or *higgle*, may thus be,—

To rake together, to collect, to accumulate, (sc.) by small means or dealings, by small gains or savings; and, consequentially, to make repeated offers or repeated refusals (in bargaining) with a view to increase of gains; or (as Cotgrave expresses it) to palter long in the buying or selling of a commodity.

On second thoughts I resign him clear to this county, loth to *higgle* for a letter or two (misprinted perchance) in the name of a town.—*Fuller. Worthies. Northumberland.*

The gentry of this county well content themselves in the very badness of passage therein, as which secureth their provisions at reasonable prices: which, if mended, *higglers* would mount, as bajulating them to London.

HI'VER. } A. S. *Hyfe*, perhaps, says Skinner, from *Hiwe*, a family, a house; and there is little doubt that both are from the A. S. *Hiwan*, formare, fabricare, to frame or fashion, to fabricate.

HO. }
HOA. } Like the Lat. *Hoi*, *heu*, *eho*, seems to
HOH. } be a mere cry or call, to arrest attention, and the written word formed from the sound. As in Lord Berners it is used as a noun, equivalent in signification to—

Stop, stay, cessation, (*hold*) — in Ritson as a verb.

Beaumont. To the Memory of Lady Clifton.

(As sings thy great forefather Ogilby,)

HOB. HOB-NAIL. HOB-NAILED. } Serenius refers to the Ger. *Hube, hufe*, (Low Lat. *Hoba*,) fundus rusticus; whence Wachter deduces *hubne*, colonus; and *hube*, or *hufe*, he derives from the A. S. *Hiwan*, formare, fabricare. (See HIVE.) *Hob* is, perhaps, (see HOBBLE,) from the A. S. *Hoppan*, to *hop*; applied to any irregular, uneven, and, thus, awkward, clumsy gait or motion; and then to—

An awkward, clumsy, clownish fellow.

Hob-nail,—perhaps, *cob-nail*,—or otherwise, a *nail* for a *horse*-shoe.

See HOBBY.

The *hobbes* as wise as grauist men,

B. Jonson. Every Man in his Humour, Act i. sc. 5.

Next, the word politician is not used to his maw, and thereupon he plays the most notorious *hobby-horse*, jesting and striking in the luxury of his nonsense with such poor fetches to cog a laughter from us, that no antic *hob-nail* at a morris, but is more handsomely facetious
Milton. Colasterion.

HO'BBLE, *v.* HO'BBLE, *n.* } The A. S. *Hoppan, hoppetan*; Ger. *Hupfen*; Dut. *Huppelen, huppen, huppelen, hubbelen*; Sw. *Hoppa*; subsilire, to *hop*; and of this *hobble* is a diminutive.

To move with a *hopping*, uneven, unsteady, irregular gait or step; to move or walk awkwardly, lamely; with pain and difficulty; to be, or cause to be, in difficulty, in perplexity; to perplex. And *hobble*, the noun, (met.)—

A difficulty, perplexity, or embarrassment.

Nur. And dances like a town top: and reels and *hobbles*
Beaum & Fletch. The Night-Walker, Act i.

The same folly hinders a man from submitting his behaviour to his age, and makes Clodius, who was a celebrated dancer at five and twenty, still love to *hobble* in a minuet, though he is past threescore —*Spectator*, No. 201.

An old woman, crooked with age, and cloathed in tatters, came *hobbling* on her little stick into the room, and, after heaving a groan, calmly sat down, dressed the child in its rags, then divided the loaf as far as it would go, and informed the poor man that the churchwardens, to whom she had gone, would send some relief.—*Knox. Essays*, No 148

Here, again, attention to his hoop will soon convince him of the truth of the axiom. If it *hobbles* in its motion, upon perfectly level ground, it cannot be a perfect circle.
Cogan. Ethical Questions, Note B.

HO'BBY. HO'BBLER. HO'BBY-HORSE. } Fr. *Hobin*; It. *Ubino*. Skinner derives from the Dan. *Hoppa*, a mare. Serenius thinks that *hobby*, and the Dan. and Isl. *Hoppa*, have the same origin as *hobble*, (qv.) viz. the A. S. *Hoppan*. If so, and it seems probable, the name must have been applied to the horse from its pace:—an easy, ambling pace, neither trot nor gallop; in which the feet are carried unevenly and not straight out.

Hobby-horse,—a horse any one takes pleasure, from the easiness of its pace, in continually riding on; and thus, a favourite horse; and (met.) a favourite object or pursuit.

Sterne coins the adjective and adverb, *hobby-horsical* and *hobby-horsically*, and seems, if not to have introduced, at least to have rendered popular, this met. usage.

Hobblers, (Low Lat. *Hobellarii*,) so called, because they rode on *hobbies*.

Thereof the report grew, that the Irish *hobbie* will not hold out in travelling. You shall have of the third sort a bastard or mongrell *hobbie*, neere as tall as the horse of service, strong in travelling, easie in ambling, and verie swift in running.—*Holinshed. Description of Ireland*, c. 2.

Having with them to the number of eight hundred men of armes, five hundred *hoblers*, and ten thousand men on foot.—*Id. Edw. II.* an. 1321.

There was of earles, lords, knights, and gentlemen, to the number of two thousand men of armes; and of such armed men as they called *hoblers*, set foorth by the burrowes and good townes twentie thousand
Holinshed. History of Scotland, an. 1342.

The battels thus ordered, mounted on a white *hobby*, he rode from rank to rank to view them; encouraging every man that day to have regard to his right and honour.
Baker. Edw. III an. 1346.

There should you see another of these cattle,
Give him a pound of silver for a rattle;
And there another, that would needsly scorse
A costly jewel for a *hobby-horse*.—*Drayton. Moon Calf.*

Sog. Signior, now you talk of a *hobby-horse*, I know where one is, will not be given for a brace of angels.
B. Jonson. Every Man out of his Humour, Act ii. sc. 1.

When members knit, and legs grow stronger,
Make use of such machine no longer;
But leap *pro tibalo*, and scout
On horse call'd *hobby*, or without.
Prior. Epistle to Fleetwood's Shepherd, May 14, 1689.

Instead of wit, and humours, your delight
Was then to see two *hobby-horses* fight.—*Dryden*, Epil. 23.

In like manner, when reason, by the assistance of grace, has prevailed over and outgrown the encroachments of sense, the delights of sensuality are to such an one but as an *hobby-horse* would be to a counsellor of state, or as tasteless as a bundle of hay to an hungry lion.
South, vol. i. Ser. 1.

Bring me the bells, the rattle bring,
And bring the *hobby* I bestrode;
When, pleas'd in many a sportive ring,
Around the room I jovial rode.
Shenstone. Ode to Memory, an. 1748.

The little horses of Wales and Cornwall, the *hobbies* of Ireland, and the shelties of Scotland, though admirably well adapted to the uses of those countries, could never have been equal to the work of war

HO'BBY. A kind of hawk. Fr. *Hobereau* or *hobreau*, of uncertain etymology. See *Menage.*

Though a lark will flie as well from a man as from a *hobbey*, yet because there is one cause more for his dislike against the *hobbey* than against the man, (namely, the deformity of their constitutions,) he will flie into the man's hand, to avoid the hawk's talons.—*Digby. Of Bodies*, c. 38.

HOBGO'BLIN. Skinner says, q. d. *Robgoblins*, from *Robin Goodfellow*, or from *Oberon*, terrestrium Dæmonum Rex, King of the Fairies. Junius thinks *hobgoblins*—proprie dictas *empusas*, (see EMPUSE,) because they limped upon one foot rather than walked; deriving *hob* (it must be presumed) from A. S. *Hoppan*, subsalire. And see GOBLIN.

To bringe in as a trim deuise

Of wiches bugge, and *hobgoblings*,

Drant. Horace. The Arte of Poetry.

Scarce set on shore, but therewithal
He meeteth Puck, which most men call
Hobgoblin, and on him doth fall
With words from phrensy spoken:
"Hoh, hoh," quoth *Hob*, "God save thy grace,
Who dress'd thee in this piteous case!
He thus that spoil'd my sovereign's face,
I would his neck were broken."—*Drayton. Nymphidia.*

I loath thee, and defy thee!
I'll now find out a purer Helicon,
Which wits may safely feast upon,
And baffle thy *hobgoblin* Don.
Brome. Against corrupted Sack.

HOB-NOB, i. e. *Hab-nab.* (qv.)

HOCK, or Hox. HOCKS, *v.* HO'CKER, *n.* Dampier writes it *hocks*. A. S. *Hoh*, the *hough* of a beast. See HOUGH. To cut or maim the *hough*.

If thou inclin'st that way, thou art a coward
Which *hoxes* honestie behind, restrayning
From course requir'd.—*Shakes. Winter's Tale*, Act i. sc 2.

He used to come hither in a bark, with six or seven servants, and spend two or three months in *hocksing* and killing cattle only for their hides and tallow.
Dampier. Voyages, an. 1676.

This way of *hocksing* bullocks seems peculiar to the Spaniards, especially to those that live here-abouts, who are very dextrous at it.—*Id. Ib.*

Neither he nor any other Spaniard ever came hither afterward to *hocks* cattle.—*Id. Ib.*

The *hocker* is mounted on a good horse, bred up to the sport, who knows so well when to advance or retreat upon occasion, that the rider has no trouble to manage him.
Id. Ib.

His arms is a *hocking*-iron, which is made in the shape of a half moon, and from one corner to the other is about six or seven inches, with a very sharp edge.—*Id. Ib.*

HO'CUS-PO'CUS. "There were two personages feared in the North, whom we may mention here, as words from their names have become familiar to ourselves. One was *Ochus Bochus*, a magician and demon, the other was *Necus*, a malign deity, who frequented the waters. It is probable (Mr. Turner adds) that we here see the origin of *hocus pocus*, and *old Nick*." (*Hist. of Anglo-Saxons, Appendix* to b. ii. c. 3.) Unless, however, some usage of these words previous to the period assigned for their origin by Tillotson, can be produced, this coincidence of sound and application, however singular, must still be considered as accidental. And see Brand, *Pop. Antiq.* ii. 416. Grey's *Hudibras*, pt. iii. c. 3. Note on v. 712, where the conjecture of Tillotson is adopted. Pegge's account attributes the corruption of *hoc est corpus* into *hocus pocus*, to the ignorance of the Catholic priests themselves. Ihre thinks they may be words formed—temerè et sine sensu.

Malone considers the modern slang *hoax* as derived from *hocus*, and Archdeacon Nares agrees with him.

Bon. Doe they thinke this Pen can juggle? I would we had *hocus pokus* for 'them then, your people, or Travitanto Tudesko.—*B. Jonson. Magnetick Lady*, Act i. Cho.

This gift of *hocus-pocussing* and of disguising matters is surprizing.—*L'Estrange.*

In all probability those common jugling words of *hocus pocus*, are nothing else but a corruption of *hoc est corpus*, by way of ridiculous imitation of the priests of the Church of Rome in their trick of Transubstantiation.
Tillotson, vol. i. Ser. 26

Our author is playing *hocus pocus* in the very similitude he takes from that jugler, and would slip upon you, as he phrases it, a counter for a groat.

HOD. Perhaps *hoved*, *hov'd*, *hod*; past part. of *heaf-an*, to *heave*.

That which is *heaved* or *raised*; applied to a raised three-sided tub or trough, used by bricklayers for carrying mortar.

A lath-hammer, trowell, a *hod* or a tray.
Tusser. Husbandly Furniture.

Decker and others are high in mirth at the expense of the bricklayer, and ring the changes on the "*hod* and trowel," the "lime, and mortar poet," very successfully, and apparently, very much to their own satisfaction.
Gifford. Memoirs of B. Jonson.

HO'DDY-DOD. HO'DDY-DO'DDY. HO'DDY-PEKE. HO'DDY-POULE. HO'DMAN-DOD. Examples sufficiently ancient, and various, have not occurred to warrant even a conjecture as to the original meaning of these words. Holland renders *cochleæ hoddy-dods*, or shell-snails, and these Bacon calls *hodman-dods*. In these words the *hod* may be *hood*, referring to the shell that covers them.

In some of the examples below, it is plainly used as a term of contempt.

So boldly dare controule
And so malapertly withstand
The kynges owne hand.

Mr Matthews, a most excellent and observant farmer in Berkshire, assured Mr. Stillingfleet, that the rooks one year, while his men were *hoeing* a field of turnips, settled on a spot where they were not at work, and that the crop proved very fine in that part, whereas in the remainder it failed.

HOG. HO'GGEREL. HO'GGISH. HO'GGISHLY. HO'GLING, *n.* A *hog* (says Skinner) is a sheep two years old, or in the second year of its age, perhaps from the A. S. *Hog-an*, curare, observare; because at that time they need the greatest care. The same reason will more especially apply to the *young* of swine: if to the *young* only of swine the name were ever restricted.

HOGSHEAD. Dut. *Ockshood*, *oghshood*, *hockshoot*. Minshew, in his first edition, asserts *ocks* to be the name of a certain measure in Brabant, and of *ocks*, this measure, and *houden*, to hold, he composed *ockshood*, q.d. a vessel holding that measure. He had also remarked, that some thought *hogshead* to be so called—a *forma*, from its form or make. In his second edition he has omitted all attempt at etymology.

Amongst the rest, Richard Chanceler the captaine of the Edward Bonauenture, was not a little grieved with the feare of wanting victuals, part whereof was found to be corrupt and putrified at Harwich, and the *hogsheads* of wine also leaked, and were not stanch.

HO'IDEN, n. } *Heyde*, a heath, or country
HO'IDEN, *adj.* } place, q. d. an inhabitant of a country place. It was applied to males, though now restricted to females. Cotgrave renders *grue*, "a sot, ass, goose-cap, *hoydon*." Bejaune,—"a rude, unfashioned, home-bred *hoydon*." (And see the quotations from Heywood and Milton.) Perhaps the same word as *Hoit*. Applied, as in Cotgrave, to—
A rude, unfashioned, home-bred fellow; and to a romping, awkward, clownish, rustic girl.

Mr. Gifford, on the citation below from B. Jonson, remarks, that from that passage, and several others which he had met with of a similar kind, he was induced to think that *hoiden* was the ancient term for a leveret; and that assuredly it was the name of some animal remarkable for the vivacity of its motions.

HO'LLY. HOLM. HOLM-TREE. } A. S. *Holegn*; aquifolium, ruscea sylvestris. The *holly*, or *holm-tree*, (Somner.) The Fr. *Houx*, is derived by Menage from the Gr. Ὀξυς, sharp; the Lat. *Aquifolium*, by Vossius, from *acuti folium*; and for the same reason, viz. the sharpness, the prickleness of the leaves. Skinner suggests that the name *hol-egn* was applied, from *hal* or *hol*, and *ecge*, the edge, *all edge*, or sharpness.

Holm, applied both to the *aquifolium* and the *ilex*, Skinner thinks may be from the A. S. *Holm*, a river island, because these trees flourish in moist and watery places. It is not improbably corrupted from *holen*, *holn*, and, by change of *n* into *m*, *holm*.

To begin therefore with them let us advertise and teach young men, that poets in using the names of Gods, sometimes meane thereby their very nature and essence: otherwhiles they attribute the *homonymy* of the same names to the powers and vertues which the Gods do give, and whereof they be the authors.—*Holland. Plutarch*, p. 24.

He desires to confer with some of her acquaintance, for his heart is still with her, to talke of her, admiring and commending her, lamenting, *honing*, [in some ed. *mooning*,] wishing himselfe any thing for her sake, to have opportunity to see her, O that he might but enjoy her presence.
Burton. Anatomy of Melancholy, p. 525.

HO'NEST, *v.* } Fr. *Honeste*; It. *Onesto*; Sp. *Honesto*, from the Lat. *Honestus*, which Vossius thinks may be from the Gr. Ονεω, ονησι, juvo, prosum, or by the change of a long vowel into a short, from *anos*, merx, pretium; qui in *honore* est, is in pretio esse dicitur; Scheidius considers *onos* to have meant, primitively, *tollo*; and thus, *honos*, vel *honor*, dicitur id quod *tollit* ex humili loco in altum, extollitque homines; that which *raises* from a low to a high station; and *exalts* or elevates mankind.

Why, every body knows the meaning of that phrase: it is to frame our lives according to the laws of virtue and religion, it is to deny ungodliness and [illegible]ldly lusts, and to live righteously, soberly, and godlily in this present world.—*Sharpe*, vol. iii. Ser. 16.

Goodness is that which makes men prefer their duty and their promise, before their passions or their interest; and is properly the object of trust: in our language, it goes rather by the name of *honesty*: though what we call an *honest* man, the Romans called a good man: and *honesty* in their language, as well as in French, rather signifies a composition of those qualities which generally acquire honour and esteem to those who possess them.

HOOD, *v.*

HO'ODLESS.
HO'ODWINK.

A. S. *Hod*; Dut. *Hoed*; Ger. *Hut*; which Skinner derives from the Dut. *Hueden*; Ger. *Hueten*, tegere, protegere, to cover, to protect. (See HAT.) Tooke observes, that from the regular past tense of the verb to *heave*, by the change of the characteristic, *hove*, and by adding *ed*, was formed the part. *hoved*; and that this part. *hoved* or *hov'd* has left behind it in modern language the supposed substantive, but really unsuspected participles, *howve*, or *hood*, *hat* or *hut*. A *hood*, then, is—

A raised covering—for the head; for the eyes (of a hawk.) To *hoodwink*,—

To cover the eyes with a *hood*; to cover the eyes; to blink or blind; and, consequentially, to deceive, to delude, to lead astray.

Wachter, in his *Prologomena*, s. 6, writes upon the various applications of the Ger. *Heit*, which, he remarks, was a word (vocula) before it was—particula postpositiva. There seems no reason to suppose that this postpositive particle is any other word than *hood*, (ante,) something *raised*, as *priesthood*, *knighthood*, *raised* to be or to the state or rank of a priest, (*heuedes* of holy churche,) of a knight; *manhood*, *maidenhood* or *head*, *childhood*, *raised* to be or become to the state, rank, or condition,—of a man, from a youth or lad,—of a maiden, from a girl,—of a child, from an infant; and subsequently applied *generally*, to—

HO'PINGLY.

A. S. *Hop-ian*; Dut. *Hopen*; Ger. *Hoffen*; in A. S. also written *Opian*, without the aspirate, and is probably from *Open-ian*, *yppan*; Dut. *Openen*; Ger. *Offnen*, aperire, pandere, to *open*, to expand, (sub.) the eyes; and, thus, to *ex-spect*, to look out or after, to stare after, (sc.) with eagerness, with desire, with anticipation of some good. In like manner to *gape*, (qv.) (A. S. *Geyppan*) has been explained, to *open*, (sub.) the mouth, as young birds, eagerly for food; and thus, to crave, to desire or covet eagerly, &c.

In the passages from Chaucer, Shakespeare, and Ford, and also in the lines quoted from Ritson, to *hope* is merely to look for, to expect. And Mr. Tyrwhitt says, it signifies the mere expectation of a future event, whether good or evil, as Ελπιζω, Gr. and *Spero*, Lat. often do. Ritson says,—suppose, fear, am afrayd. To *hope*, then, is—

To look out or after, to expect, (sc. with *open*, outstretched eyes;) to expect, (sub.) with desire, with anticipation of, with trust or confidence in, some good.

HORSE, *v.* **HORSE**, *n.* **HO'RSELY.** **HO'RSY.** Of uncertain etymology. A. S. *Hors*. Belgis olim (says Somner) *ors, horse*, or *hors*; hodiè vero, *r* per metathesin transposito *ros*. Ger. *Ross*; Sw. *Oers, hors*; and Fr. *Rosse*; It. *Rozza*; Sp. *Rozin*; a *horse* of an inferior kind. Somner considers the A. S. *Hors* to mean *cornipes*, that which hath a hard or *horn* hoof. Wachter derives the Ger. *Ross*, from the Ger. verb *Reiten, vehi*, (A. S. *Rid-an, rit-an*, to ride.) And *hors*, he thinks, may be the same word as *ross* (per metathesin *ors*,) or so called from its industry and speed. That *hors* in A. S. had such signification, he infers from the compound *horsdic*, which Somner interprets—gnaviter, diligenter,—diligently, earnestly.

To *horse* (sc. for a flogging) is perhaps,—to *hoise* or *hoist*.

The animal may not improbably be so called (*horse*), from its obedience and tractableness: A. S. *Hyrs-ian*, to obey. (See *Tooke*, 8vo. ed. vol. ii. p. 284.)

Horse is much used—prefixed; frequently to denote,—large, gross, coarse, strong.

HOVEL, *n.* Ho'vel, *v.* } Dr. T. H. (in Skinner) derives from A. S. *Hofe*, a house. Tooke considers it to be the diminutive of *hove*, (whence also probably the *hofe* of Dr. T. H.) the past part. of *heave*. *Hovel*, therefore, is—

A small *raised* building.

HOVER, *v.* Ho'ver, *n.* Ho'verer. Ho'verly. } Skinner thinks may be either from the A. S. *Heaf-ian*, to heave, to raise, to elevate; or from the verb to *cover*. There is little doubt that *hover* (without the aspirate—*Over*—qv.) is from the past tense *hove*, of the verb to *heave*.

To raise or rise aloft, to stay or remain aloft or *over*, (sub. in flight; fluttering;) to be or remain in suspense; to keep or move near or about, (sc. as if to pounce upon—like a bird of prey.)

And as a sillie kight (not falcon like that flie,

HOWVE, i. e. his *hood*, *hood* and cap being equally coverings for the head; to set a man's *howve*, is the same as to set his *cap*, (Tyrwhitt.) A similar explanation is given by Tooke, who forms *howve* from *hoved*, *hov'd*, the past part. of the verb to *heave*.
A howve above a call signifies *a hood above a cap*, (Tyrwhitt.)

HU'FFING, *s.* } *Huff*, the noun, Skinner thinks, may be from the A. S. *Heof-an*, elevatus, i. e. *heaved*, raised. And Tooke considers it to be formed from *hove*, the regular past tense of the verb to *heave*. To *huff*, is,—

To *heave* or raise; to swell; to inflate, to puff out; to bluster.

See To Hove, and the quotations there from Holland's *Pliny*.

HU'GGER-MU'GGER. This is the common way of writing this word from Udal to the present time. Sir Thomas More is said to have written it *hoker-moker*; others write *hucker mucker*, and Ascham, *hudder-mother*. No probable etymology has yet been given. The Scotch (see *Jamieson*) have *hudge mudge*, *huggrie muggrie*; and to *hugger-mugger*. *Huggrie-muggrie*, Dr. Jamieson interprets, "in a confused state, disorderly;" and similar to this is the usage of the English in vulgar speech at the present time. The reading of Ascham (though single) suggests the conjecture, that these words, however written, are formed from *hood* or *hud*, and *mud*; q. d. *hud-mud*, the diminutives *huddle-muddle*, *hudder-mudder*, *hugger-mugger*; the meaning will then be—

Confusedly and dirtily; and, therefore, thrown out of sight; consequentially, concealedly, covertly, secretly, privily.

If shootinge fault at any time, it hydes it not, it lurkes not in corners and *hudder-mother*; but openlye accuseth and bewrayeth itselfe —*Ascham. Toxophilus.*

To *hum* is applied to the noise of bees, and to any similar sound—that of waters:—a *hoaming* sea, in Dryden, seems to be—a *humming*, *hoom-ing* sea; equivalent to a *booming* sea. Modern editions read—*foaming*.

To *hum* was formerly at public places a mode of expressing approbation or applause; (see the quotations from *State Trials*, King, and Dr. Johnson;) and being hence extended to flattery, to cajolery, to *hum* is, consequentially—

To cajole; to trick or delude by flattery, soothing, or coaxing. Hence also *humbug*. See Bug.

The *humming* of bees is an unequall buzzing, and is conceived by some of the ancients, not to come forth at their mouth, but to be an inward sound; but (it may be) it is neither, but from the motion of their wings; for it is not heard but when they stirre.—*Bacon. Naturall Historie*, s. 175.

There prevailed in those days an indecent custom; when the preacher touched any favourite topick in a manner that delighted his audience, their approbation was expressed by a loud *hum*, continued, in proportion to their zeal or pleasure. When Burnet preached, part of his congregation *hummed* so loudly and so long, that he sat down to enjoy it, and rubbed his face with his handkerchief. When Sprat preached, he likewise was honoured with the like animating *hum*, but he stretched out his hand to the congregation, and cried, "Peace, peace; I pray you, peace."

Johnson. Life of Sprat.

But what are all *hummers*, their tricks and their arts

Has delightfully *humm'd* the whole race of mankind.

Lat. *Humectare, humidus*; Fr. *Humecter, humide*; It. *Umido*; Sp. *Humedo*; from *humere*, to wet or moisten, and this from *humus*. See HUMBLE.

HU'MOUR, s.
HU'MOUR, v.
HU'MORAL.
HU'MOURIST, or HU'MORIST.
HU'MOROUS.
HU'MOUROUSLY.
HU'MOUROUSNESS.
HU'MOURSOME.
HU'MOURSOMELY.

Fr. *Humeur*; It. *Umore*; Sp. *Humor*; Lat. *Humor*. For the etymology, see HUMECT.

The healthy or unhealthy temperament or disposition of the body was supposed to depend upon four principal *humours*; (see the quotation from the *Castel of Helth*;) and the word was early applied, (met.) to the temperament or disposition of the mind. In B. Jonson's time, it appears to have been further extended in an extravagant degree to the whims or peculiarities of the temper or disposition. See the *Induction to Every Man out of his Humour*; also *Every Man in his Humour*, Act iii. And see *Nares*.

Humour, is—literally, moisture. *Humourous*, in Shakespeare and B. Jonson, (and also in Chapman and Drayton, quoted by Steevens in his note on Shakespeare,) as we now use *humid*; also, as *humoursome*.

Humour is applied, emphatically, to a diseased state in the quantity or quality of *humours* in the body. (Met.) the temperament, temper, or disposition of mind, general or particular; the peculiar whim, caprice or fancy.

For some especial usages of *humour* and *humourist*, see the quotations from Temple, Swift, the *Spectator*, *Rambler*, and Goldsmith.

Swevenes engendren of repletions,
And oft of fume, and of complexions,
Whan *humours* ben to habundant in a wight.

With bodies, to commix with frail mortality.
Drayton. Poly-Olbion, s. 5.

Cudworth. Intellectual System, p. 107.

Such excellent persons must in all things be *humoured*, and cockered, otherwise you greatly wrong them.
Barrow, vol. iii. Ser. 39.

I am deceived if our English has not in some kind excelled both the modern and the antient [dramatic poetry] which has been by force of a vein natural perhaps to our country, and which with us is called *humour*, a word peculiar to our language too, and hard to be expressed in any other.—Thus we come to have more originals, and more that appear what they are, we have more *humour*, because every man follows his own, and takes a pleasure, perhaps a pride, to shew it.
Sir W. Temple. Of Poetry.

As this taste of *humour* is purely natural, so is *humour* itself: neither is it a talent confined to men of wit or learning; for we observe it sometimes among common servants, and the meanest of the people, while the very owners are often ignorant of the gift they possess.
Swift. The Intelligencer, No 3.

If a *humoral* tumour be made by any external cause, as by a wound, bruise, &c. it is easily discerned.
Wiseman. Surgery, b. i. c. 2.

The desire the *humourist* hath to be some body, and to have a name above those of common apprehension, will be sure to actuate the scoffing vein: in the exercise of which, if he have quibbled luckily, and made folks laugh, he is encouraged to take all such occasions to prove himself a wit, and shew he had a pretty way to play the fool.
Glanvill. A Whip for the Droll, s. 2.

These poor gentlemen endeavour to gain themselves the reputation of wits and *humourists*, by such monstrous conceits as almost qualify them for Bedlam; not considering that *humour* should always lie under the check of reason, and that it requires the direction of the nicest judgment, by so much the more as it indulges itself in the most boundless freedoms.—*Spectator*, No 35.

He lived as a lodger at a house of a widow-woman, and was a great *humourist* in all the parts of his life.
Spectator, No. 101.

A rule, that by adding discretion to devotion, will both keep him from being *humoursome*, singular and phantastick in his preparations before the sacrament, and (which is worse, and must fatally unravel all again) from being (as most are) loose and remiss after it.—*South*, vol. ii Ser. 8.

By *humouring* the mind in trifles, we teach it to presume on its own importunity, in greater matters: and it will be found a convenient rule in the management of our passions, as of our children, to refuse a compliance with them, not merely when they ask improper things, but when they ask any thing with impatience.—*Hurd*, vol. vii. Ser. 48.

Wit raises human nature above its level; *humour* acts a contrary part and equally depresses it. To expect exalted *humour* is a contradiction in terms; and the critic, by demanding an impossibility from the comic poet, has in effect banished new comedy from the stage.
Goldsmith. On Polite Learning, c. 11.

Good *humour* may be defined a habit of being pleased; a constant and perennial softness of manner, easiness of approach, and suavity of disposition. it is a state between gaiety and unconcern; the act or emanation of a mind at leisure to regard the gratification of another
Rambler, No. 72.

When a thing is *humourously* described, our burst of laughter proceeds from a very different cause; we compare the absurdity of the character represented with our own, and triumph in conscious superiority.
Goldsmith. On Polite Learning, c. 11.

HUMP, *n.*
HU'MPED.
HUMP-BACK, *adj.*

Perhaps from the A. S. *Impan*, inserere, implantare, to implant, to ingraft; but no very ancient examples of the word have occurred, nor is it to be found in our old lexicographers. Applied to—

A lump or bump planted or fixed upon the back.

Observing one advancing towards the heap with a larger cargo than ordinary upon his back, I found upon his near approach that it was only a natural *hump*, which he disposed of with great joy of heart among this collection of human miseries.—*Spectator*, No. 558.

The eldest son of Philip, then chief of the family, [was] born with an *hump-back* and very high nose.

HUNCH, *v.*
HUNCH, *n.*
HUNCH-BACKED.

Hunch-back'd, (says Skinner,) gibbosus, from the Ger. *Hocker*, gibbus; Dut. *Hucken*, in terram desidere, to sit down upon the ground; *huck-schouderen*, humeros contrahere; to contract the shoulders. To *hunch*, he derives from the Ger. *Husche*, a blow of the fist. To *hunch* appears to mean,—

To press, squeeze, or push against.

A *hunch*, a *bunch*; a lump or bump occasioned by pressure; a bump or thump.

A *hunch* of bread,—a piece of bread, (Grose.) A good big slice, or lump, of bread or meat, (Moor.)

Then Jack's friends began to *hunch* and push one another. "Why don't you go and cut the poor fellow down? Why don't you?"—*History of John Bull*, c. 13.

HU'NDRED, *n.*
HU'NDRED, *adj.*
HU'NDREDOR.
HU'NDREDTH.
HU'NDREDFOLD.

Dut. *Houdred*; Ger. *Hundert*; Sw. *Hundrade*. "It is in the highest degree probable (says Tooke) that all numeration was originally performed by the fingers, the actual resort of the ignorant; for the number of the fingers is still the utmost extent of numeration. The hands doubled, closed, shut in, include and conclude all number; and might therefore well be denominated *tyn* or ten," (i. e. *closed*, from the A. S. verb, *Tyn-an*, to enclose. See TEN.) And Wachter conjectures that the Goth. and A. S. *Hund*, is no other word than *hand*, manus, in many dialects written *hond*; and that in numeration it was originally used to signify *ten*; he further observes that our forefathers numerated not only units, but decads, by the fingers, and that hence *hund* became applied to *decies decem*, or ten times ten: i. e. it may be added, to the number denoted by the fingers of the hand ten times closed. In the A. S. notation, it is evident, *hund* was not always applied to 100; for instance, 70 was expressed by *hund seofontig*, which, if we connect the interpretations of Tooke and Wachter, would be the *hand*, or fingers of the *hand*, seven times closed; 80, *hund eahtatig*, or the *hand* eight times closed; and in this manner they proceeded to 120, *hund twelftig*, or the hand twelve times closed. The termination *ert*, *red*, *rude*, *rade*, Wachter supposes to be *rat*, numerus, from the Ger. *Rat-en*, (in A. S. *Rad-an*,) to count, to calculate; and thus *hundert* will be, q. d. numerus centenarius; or rather, consistently with his own etymology, the number denoted by the hand, or fingers of the hand ten times *counted*. Junius traces and explains *hund*, and the A. S. manner of using it, differently: the A. S. *Tyn*, or 10, is in Goth. *Taihun*, and 100, or 10 times 10, *taihuntaihund*, or *taihuntehund*; and he supposes that the cause of this reduplication not being observed, the terminating syllable *hund* became separately written, thus—*taihuntai hund*, or *taihunte hund*; and that the Anglo-Saxons, misled by this corrupt manner of writing, prefixed *hund*, veluti ex supervacuo, to their higher cardinal numbers, and even denominated 100, *hund teontig*, i. e. *hund* ten times. According to this interpretation, the superfluous *hund* became in time alone retained, and the significant *teontig* discarded.

HU'SBANDRY. } Skinner says,—from A.S. *Hus*, a house, and *band*, q. d. domûs vinculum. Spelman in v. *Husbandus*, to the same effect. Junius acknowledges this etymology to be sufficiently specious, but nevertheless thinks the word to be of Danish origin. Dr. Jamieson is of opinion that the terminating syllable *band*, is not from the A. S. *Bind-an*, to *bind*; but from *buand*, *buende*, the past part. of *bu-an*, *by-an*, habitare, colere, to dwell or inhabitate, to cultivate or till. The A. S. *Land-buend* was an inhabitant or dweller in the *land*, also a tiller of the *land*; and *buende* is itself interpreted, by Somner, a *husbandman*, an inhabitant, a dweller; *hus-band*, then, as distinguished from *land-buend*, he (Dr. J.) supposes to have denoted, a person who inhabited a *house*, or was a constant resident in the country, keeping a family there; hence (he adds) it would come to signify the master of a family; and by an easy transition, a *husband*. *Bonde*, in Sw. which Ihre derives from the A. S. *Buend*, is in its simple form applied to the father of a family, a *husband*, (maritus;) a tiller of the land, &c. See *Ihre*.

Husband is applied to—

The master of the *house* or family; of the farm or estate, the tiller or cultivator of it; to the man or male espoused or married to the woman; to the males of animals.

Husbandry,—the tillage or cultivation; management or economy: careful, provident, or thrifty management, thrift, parsimony.

To *husband*,—to act as *husband*, (maritus;) to provide with a *husband*.

To act as *husband* or *husbandman*,—to till, to cultivate; to manage or economize; to use careful, provident, or thrifty management.

HUSK, *v.* }
HUSK, *n.* }
HU'SKY. } Dut. *Hulse, hulsche, huldsche*, siliqua, calix, (Kilian.) Skinner derives from the verb: *hutten*, caput tegere, to cover the head; and this from the A. S. *Hel-an*, to cover. See HULL.

Husk is,—the cover of the seed or fruit; to *husk*, to take out of the *husk*, or cover.

Anstey. Pleader's Guide.

HU'STINGS. Various etymologies have been proposed. The one contained in the quotation from Fuller, is supported by Cowel. Somner, in his *Glos. ad Histor. Anglic. Scriptores*, derives from A. S. *Hyhst*, highest, and *thing, judicium*, judgment. Spelman, who calls it the most ancient and high court of the celebrated city of London, from A. S. *Hus*, a house, and *thing*, causa, res, lis, judicium; quasi *domus causarum* vel ubi causæ aguntur. The Dut. *Dingh*, and Ger. *Ding*, are used in the same signification. The most popular usage of the word seems to support the opinion of Cowel; viz.—

It is now chiefly used for a place *raised*, or *erected, hoisted*, for candidates at an election of representatives in parliament.

You are all for the *hoistings* or *hustings*. It is spoken of those who by pride or passion are mounted or elated to a pitch above the proportion of their birth, quality or estate; such as are all in *altitudinibus*, so that common persons know not how to behave themselves unto them. It cometh from the *hustings*, the principal and highest court in London, (as also in Winchester, Lincoine, York, &c.) so called from the French word *hausser, to raise or lift up.*
Fuller. Worthies. London.

The chief of those [Courts] in London are the sheriff's Courts, holden before their steward or judge: from which a writ of error lies to the Court of *hustings*, before the mayor, recorder, and sheriffs.
Blackstone. Commentaries, b. iii. c 6. s. 9. Note 1.

It is only in times like the present, when attempts are flagitiously made to murder innocent men, that the progress of a candidate can possibly be from the *hustings* to Newgate, and from Newgate back to the *hustings*.

HUT. Fr. *Hute*; Dut. and Ger. *Hutte*; Sw. *Hyda*, tugurium, from Ger. *Huten*; Sw. *Hyda*, celare, protegere; to hide, (A. S. *Hyd-an*,) to cover or protect. (See *Kilian, Wachter* and *Ihre.*) Tooke, in opposition to these authorities, conceives *hut* to be formed from the past part. *Hoved*, of the A. S. verb *Heaf-an*, to heave; thus, *hoved* or *hov'd*, *howve* or *hood*, *hut*. According to the first, *hut* is—A place *covered*; to the second, a place *raised*: it is applied to—a small building for covering or protection.

For scatred er thi Scottis, & hodred in ther *hottes.*
R. Brunne, p. 273.

HUTCH, *v.* }
HUTCH, *n.* } Fr. *Huche*. A *hutch* or bin, a trough or tub; also a *mill-hopper*, (Cotgrave.) The Sp. *Hucha*, Delpino calls, a box with a slit to put money in. In A. S. it is *Hecsen*; and Somner and Lye say that Chaucer writes *Wiche*, (qv.) but this the latter thinks is so called from the wood of which it was made, the *wich* or wich-elm.

To *hutch*,—to hoard, or lay up in store; as in a *hutch* or coffer.

Warton (on Milton's *Comus*) says,—"*Hutch* is an old word for *coffer*. Archbishop Chichele gave a borrowing chest to the University of Oxford which was called *Chichele's Hutch*. Some perhaps may read *hatch'd*, for it was in her own loyns."

To store her children with. *Milton. Comus.*

For as a miller in his boulting *hutch*
Drives out the pure meale neerely, (as he can)
And in his sifter leaves the coarser bran;
So doth the canker of a poet's name
Let slip such lines as might inherit fame.
Browne. Britannia's Pastorals, b ii. s. 2.

HUZZ. }
HUZZA', *v.* }
HUZZA', *n.* } *Huzz*, Skinner and Junius consider to be a word formed from the sound. To *huzz*, *huss*, or *hiss*, are the same word differently written. To *huzz* may be applied where the sibilant *s* is less audible; *hiss*, where it is more so. The derivation of *huzza* from *Hungarian* soldiers so called, or from *Hosannah*, appear neither of them very probable.

Huzza is the word shouted; to *huzza* is to shout the word *huzza*. *Hurrah* (pronounced *hoo-ra*) is in similar usage.

She onely crieth not, nor keepeth a grumbling and *huzzing* as others doe.—*Holland. Pinie*, b. x. c. 3.

If the fire then burne in the chimney pale, and keepe therewith a *huzzing* noise, wee find by experience that it foresheweth tempest and stormie weather.—*Id. Ib.* b. xviii. c. 35.

They made a great *huzza*, or shout, at our approach, three times.—*Evelyn. Memoirs, June* 30, 1665.

Hyacinthine,—of or pertaining to the *hyacinth*; formed of, having the colour of *hyacinth.*

But before I leave the *hyacinth*, I cannot chuse but report the fable or tale that goeth thereof, and which is told two manner of waies, by reason that the flower hath certain veines to be seene running in and out, resembling these two letters in Greeke, A I, plaine and easie to be read; which, as some say, betoken the lamentable mone [ai] that Apollo made for his beloved wanton minion, *Hyacinthus*, whom he loved: or, as others make report, sprung up of the bloud of Ajax who slew himselfe, and represented the two first letters of his name, AI.—*Holland. HYÆ'NA. } Fr. *Hyenne*; It. *Iena*; Sp. *Hyena*;
HY'ENA. } Lat. *Hyæna*; Gr. Ὕαινα, *porca*, from ὑς, *sus*.

HY'BRIDOUS. } Ὑβρις, *injuria*, quod injuriam contumeliosam notat; (sc. adulterium.) Scaliger (in *Varronem*) and Vossius prefer an ancient Tuscan word, *umbri*, signifying *spurius*.

See *Vossius* and *Martinius*; also the quotation from Pliny.

There is no creature engendreth so soone with wild of the kind, as doth the swine; and in good sooth such hogges in old time they called *hybrides*, as a man would say, halfe wild: insomuch as this tearme by a translation, hath been attributed to mankind.—*Holland. Plinie*, b. viii. c. 53.

She's a wild Irish born, sir, and a *hybride*.
B. Jonson. The New Inn, Act ii. sc. 2.

Let us therefore, by way of close, briefly recapitulate, and lay together the fore alledged reasons and arguments, why we should by all means deal with our separatists and dissenters as Saint Paul (a most authentick example) did with those judaizing *hybrid* Christians, viz. not give place to them at all.—*South*, vol. v. Ser. 12.

But now why such different species should not only mingle together, but also generate an animal, and yet that that *hybridous* production should not again generate, and so a new race be carried on: but nature should stop here and proceed no further, is to me a mystery and unaccountable.
Ray. Of the Creation, pt. ii.

HY'DRA. Fr. *Hydre*; It. *Idra*; Sp. *Hydra*; Lat. *Hydra*, or *hydrus*, a water serpent, from the Gr. Ὑδωρ, water. From the qualities ascribed to it in the quotation from Sandys, *Hydra* is applied to—

Boyle. Works, p. 232.

And as chymistry, that is conversant about fire, so even hydrostaticks and *hydraulicks*, that teach us to make engines and contrivances for lifting up, and for the conveying of water, may in divers places be of no small use to the husbandman.—*Id. Ib.* vol. iii. p. 407.

If we had never in our lives seen any but one single kind of *hydraulick* machine, yet, if of that one kind we understood the mechanism and use, we should be as perfectly assured that it proceeded from the hand, and thought, and skill of a workman, as if we visited a museum of the arts, and saw collected there twenty different kinds of machines for drawing water, or a thousand different kinds for other purposes.—*Paley. Natural Theology*, c. 6.

HYDROCE'LE. Gr. Ὑδροκηλη, from ὑδωρ, water, and κηλη, a watery swelling or tumour. See the quotation.

The artificer must in the framing of his little engine have had due regard to all these, and consequently have had a comprehension of divers celestial and *hydrographical* truths.
Boyle. Works, vol. vi. p. 324.

HY'DROMEL. Fr. *Hydromel*; It. *Idromele*; Lat. *Hydromel*; Gr. Ὑδρομελι, from ὑδωρ, water, and μελι, honey. See the quotation from Pliny.

As touching the mead called *Hydromell*, it consisted in times past of rain water well purified, and hony.
Holland. Plinie, b. xxxi. c. 6.

In divers parts of Moscovy, and some other Northern regions, the common drink is *hydromel*, made of water fermented with honey.—*Boyle. Works*, vol. ii. p. 105.

HYDROPHO'BIA. } Fr. *Hydrophobie*; It.
HY'DROPHOBY. } *Idrofobia*; Sp. *Hydrophobia*; Lat. *Hydrophobia*; Gr. Ὑδροφοβια, from ὑδωρ, water, and φοβος, fear.

Fear or dread of water.

See the quotation from Holland.

Athenodorus, in the first book of his epidemiall or popular diseases, writeth, that not only the said leprosie, but also the *hydrophobie*, that is to say, *the fear of water*, occasioned by the biting of a mad dog, were first discovered in the days of Asclepiades.—*Holland. Plutarch*, p. 638

One would think the ancients imagin'd this disease [fanaticism] had some relation to that which they call'd *hydrophoby*.—*Shaftesbury. Enthusiasm*, s. 6.

Here it is natural to ask, had the demons (whom you consider as bodiless and spiritual beings) any fear of being drowned? Or had they only (that symptom of one species of insanity in human beings) a *hydrophobia*, or dread of water.—*Farmer. On the Demoniacs of the New Test. Let. 3.*

See the quotation from Wiseman.

He that hath the *hydropsy*, the more he drynketh the more thyrsty he is.—*Udal. Flowres for Lat. Speaking*, fol. 83.

Some bones make best skeletons, some bodies quick and speediest ashes, who would expect a quick flame from *hydropical* Heraclitus?—*Brown. Urne-Burial*, c. 3.

Yea, bloudy Bonner had murdered many more, had not that *hydropical* humour, which quenched the life of Queen Mary, extinguished also the fires in Smithfield.
Fuller. Worthies. London

It may I confess by siccity and astriction afford a confirmation unto parts relaxed, and such as be *hydropically* disposed.—*Brown. Vulgar Errours*, b. ii. c. 3.

It is just as if a physician should refuse to give drink to an *hydropick* patient, he may have it if he be willing to die, but if the other refuses his ministry in reaching it, he is charitable and kind, not imperious and usurping.
Bp. Taylor. Rule of Conscience, b. iii. c. 4.

Of limbs enormous, but, withal unsound,
Soft swoln and pale, here lay the *hydropsy*:
Unwieldy man; with belly monstrous round,
For ever fed with watery supply.
Thomson. Castle of Indolence, c. 1.

Waterish or *hydropical* tumours are the effects of an extravasated serum, which according to the place on which it lights doth denominate the disease.

HYDROSTATI'CIAN. } τικη, from στατιζειν, *sistere*.

Aristotle deduced *hydrostaticks* from the application he made of vulgar staticks to bodies weighed in air and water, or in water only.—*Boyle. Works*, vol. ii. p. 441.

But this scarce evitable imperfection of *hydrostatical* and the like experiments does not hinder, but that by their help we may make good estimates of the weights and bulks of very many bodies.—*Id. Ib.* vol. v. p. 455.

One of the first pieces of black marble that I examined *hydrostatically*, was found to be to water of the same bulk scarce any more than 2 7-10ths to 1.—*Id. Ib.* vol. iii. p. 557.

It is known to *hydrostaticians* that, according to a theorem of Archimedes, the weight of a body, belonging to that kind, may be gathered from the weight of the water, that is equal in magnitude to that part of the body that is immersed in that liquor, when the solid floats freely upon it.
Id. Ib. vol. vi. p. 482.

Cheselden seems to have thought, that the advantage which the left [arteries] gain by going off at an angle much more acute than the right is made up to the right by their going off together in one branch. It is very possible that this may be the compensating contrivance: and if it be so, how curious, how *hydrostatical*.—*Paley. Nat. Theol.* c. 11.

HY'EMAL. } Fr. and Sp. *Hyemale*; It.
HYEMA'TION. } *Iemale*; Lat. *Hyemalis*, from *hyems*, winter, Gr. Απο του ὑειν, *pluere*, to rain. *Hyemation* is not uncommon in Evelyn.

Of or pertaining to winter; wintry.

Beside vernal, estival, autumnal [garlands] made of flowers, the ancients had also *hyemal* garlands
Brown. Miscellanies, p. 92.

The American yucca is a harder plant than we take it to be; for it will suffer our sharpest winter, as I have seen by experience, without that trouble and care of setting it in cases in our conservatories for *hyemation*.
Evelyn. Sylva, c. 20

HYGIEI'NAL. *Hygeia*, the goddess of health. Gr. Υγιεια; Fr. *Hygiénique*; health-preserving physic, (Cotgrave.)

HYGRO'METER. Sp. *Hygrometro*; Gr. Ὑγρον, *humidus*, wet or moist, and μετρον, a measure.
A measure of water, or the properties of water.

I have news from Paris, from an ingenious acquaintance there, that a friend of his has found out a very sensible *hygrometer*, which, besides marking the moistness of the air, will also be improved to wind up a pendulum; which if it succeeds, will be a kind of perpetual motion.
Boyle. Works, vol. vi. p. 540.

HY'GROSCOPE. Gr. Ὑγρος, *humidus*, moist, and σκοπεω, *observare*, to observe or remark.
See the quotation.

It seemed to me, if a statical *hygroscope* could be had, it would be very convenient in regard of its fitness, both *to determine the degrees of the moisture, or dryness of the air*, and to transmit the observations made of them to others.
Boyle. Works, vol. i. p. 788.

HY'LLED. See To Hill.

HY'LOZOISM. HY'LOZOIST. HY'LOZOICK. HY'LOZOICAL. } Gr. Ὑλη, matter, and ζωη, life. See the first quotation from Cudworth.

Hylozoism makes all *body*, as such, and therefore every smallest atom of it, to have *life* essentially belonging to it.
Cudworth. Intellectual System, p. 105.

There hath been already mentioned, another form of Atheism, called by us *hylozoical*.—*Id. Ib.*

The numen which the *hylozoick* corporealist pays all his devotions to, is a certain blind shee god or goddess, called Nature, or the life of matter, which is a very great mystery, a thing that is perfectly wise, and infallibly omniscient, without any knowledge or consciousness at all.
Id. Ib. p. 107.

And from thence afterward to descend also further, to *hylozoism*, that all matter, as such, hath a kind of natural, though not animal life in it, in consideration whereof, we ought not to censure every *hylozoist*, professing to hold a deity and a rational soul immortal, for a mere disguised atheist, or counterfeit histrionical theist.—*Id. Ib.* p. 106.

The *hylozoists*, by Cudworth's account of them, ascribed a little more to their atoms, imagining them endued with a quality which, though not perception, might be stiled the seed or principle whereout by the junction of many of them together perception might be compleated.
Search. The Light of Nature, vol. ii. pt. i. c. 9.

Milton. Paradise Lost, b. iv.

And though the times far differing thoughts demand,
Though war dissents from *Hymen's* holy band;
In plain unsolemn wise his faith he plights,
And calls the Gods to view the lonely rights.
Rowe. Lucan, b. i.

Pope. Homer. Iliad, b. xviii.

Mede. Dialogues, p. 56.

To grace those nuptials from the bright abode
Yourselves were present, where this minstrel God
(Well pleas'd to share the feast) amid the quire
Stood proud to *hymn*, and tune his youthful lyre.
Pope. Homer. Iliad, b. xxiv.

We find it recorded by two of the evangelists, that our Saviour and his disciples, immediately after the institution of the Lord's supper, sung an *hymn* of praise unto God, probably the same or part of that *hymn* which the Jews used to sing after the Paschal supper.—*Clarke*, vol. i. Ser. 55.

Gay. Wine, a Poem.

HY'PER. Prior seems to mean a critic or criticism *upon* a critic or criticism. See Hypercritick.

Critics I read on other men,
And *hypers* upon them again;
From whose remarks I give opinion
On twenty books, yet ne'er look in one.
Prior. Epistle to Fleetwood Shepheard, Esq.

HYPERA'SPIST. Gr. Ὑπερασπιστης, from ὑπερ, over or above, and ασπις, a shield; one who throws a *shield* over, a protector or defender.

Thus much then being acknowledged, I appeal to any indifferent reader, whether C. M. be not by his *hyperaspist* forsaken in the plain field.
Chillingworth. The Religion of Protestants, pt. i. c. 1.

HYPE'RBATON. Lat. *Hyperbaton*; from the Gr. Ὑπερβαιν-ειν, *transgredi*, to transgress. In Latin this figure of speech is also called *transgressio*: (quæ verborum *perturbat* ordinem. *Ad Heren.* lib. iv. c. 32.)
See the quotation from Smith's *Longinus*.

But if your meaning be with a violent *hyperbaton* to transpose the text, as if the words lay thus in order, neglect not the gift of presbytery; this were a construction like a harquebuze shot over a file of words twelve deep, without authority to bid them stop.
Milton. Animad. upon Remon. Defence, s. 5.

An *hyperbaton* is a transposing of words or thoughts out of their natural and grammatical order, and it is a figure stamped with the truest image of a most forcible passion.
Smith. Longinus. On the Sublime, s. 21.

HY'PERBOLE. HYPERBO'LICAL. HYPERBO'LICALLY. HYPE'RBOLISM. HYPE'RBOLIST. HYPE'RBOLIZE, *v.* } Fr. *Hyperbole*; It. *Iperbole*; Sp. *Hyperbole*; Lat. *Hyperbola*; Gr. Ὑπερβολη, from Ὑπερβαλλειν, *superjicere*, to cast or throw over. Cicero uses the equivalent name, veritatis *superlutio* atque *trajectio*. *De Or.* lib. iii. c. 53.
See the quotation from Blair's *Lectures*.

What was the portion of heaven's favorite, when Omniscience itself sat in council to furnish him with all those accomplishments, which his specifick capacity could contain? which questionless were as much above the *hyperboles* that fond Poetry bestows upon its admired objects, as their flatter'd beauties are really below them.
Glanvill. The Vanity of Dogmatizing, c. 1.

What is true of the bills of some unconscionable tradesmen, "if ever paid, over paid;" may be said of this *hyperbolical* epitaph, "if ever believed, over believed."
Fuller. Worthies. Bedfordshire.

So as in all the Scriptures of the Old Testament throughout, is the word heaven very oft used for air, and taken also *hyperbolically* for any great height, as, Let us build us a tower, whose top may reach to heaven, &c.
Raleigh. History of the World, b. i. c. 1. s. 8.

For you have read peradventure (it is not likely that you have heard by relation) how strangely some of the ancientest fathers doe speak, and how they *hyperbolize* sometimes in some points in their popular sermons.
Mountagu. Appeale to Cæsar, c. 22.

Somebody has said of the boldest figure in rhetoric, the *hyperbole*, that it lies without deceiving.
Bolingbroke, Ess. i. *Of Human Knowledge.*

In gratitude to this book I have heard him *hyperbolically* say, that not only he owed more to Quintus Curtius, than Alexander did; but derived more advantage from the history of that great monarch's conquests, than ever he did from the conquests themselves.—*Boyle. Works*, vol. i. p. 16.

[I cannot but] cease to think the Psalmist an *hyperbolist*, for comparing the transcendent sweetness of God's word to that inferior one of honey.—*Id. Ib.* vol. ii. p. 322.

The next figure is called *hyperbole*, or exaggeration. It consists in magnifying an object beyond its natural bounds. In all languages, even in common conversation, *hyperbolical* expressions very frequently occur; as swift as the wind, as white as the snow; and the like; and our common forms of compliment are almost all of them extravagant *hyperboles*.
Blair, vol. i. Lect. 15.

Some particular expressions are found in it, which, with all the allowance that can be made for the *hyperbolisms* of the oriental style, (of which, of late years, we have been accustomed to hear more than is true as applied to the sacred writers,) are not easily applicable to the parties, even in a royal marriage.—*Bp. Horsley*, vol. i. Ser. 5.

HYPERBO'REAN. Lat. *Hyperborus*; Gr. Ὑπερβορεος, as if, *super Boream*, beyond Boreas, or the North.
Northerly; in the remotest North.

——— Thus they lash on
The small pac'd *hyperborean* nights, till heaven

Armstrong. Imitation of Shakespeare.

HYPERCRI'TICK. HYPERCRI'TICAL. } Gr. Ὑπερ, above, and κριτικος, critical; from Κριν-ειν, to discern.

Carew. Cœlum Britanniæum.

The *hypercriticall* controuller of Poets, Julius Scaliger, doth so severely censure nations, that hee seemed to sit in the chaire of the scornefull.—*Camden. Remaines. Inhabitants.*

But I recollect the censure that has justly fallen on Zoilus, and on all the race of *hypercriticks*: I recollect also the trite idea of finding spots in the sun.
Knox. Winter Evenings, Even. 37.

I inclose my remarks which you may throw into the fire, if you do not like them; they are as you seemed to wish, somewhat *hypercritical*, and perhaps too severe.
Sir W. Jones. Letter to Count Reizzki.

HYPERDU'LIA. HY'PERDULY. HYPERDU'LICAL. } Gr. Ὑπερ, above, and δουλεια, service. *Service above* or *beyond*; (sc.) what is usually paid.
Cotgrave calls the Fr. "*Hyperdulie*,—the highest worship, worship that belongs only to God."

Take care that you observe what sort of image it is, and then proportion your right kind to it, that you do not give *latria* to that where *hyperdulia* is only due, and be careful that if *dulia* only be due that your worship be not *hyperdulical*.—*Bp. Taylor. Dissuasive from Popery*, pt. ii. b. ii. s. 6.

Now call you this devotion, as you please, whether duly or *hyperduly*, or indirect, or reductive, or reflected, or anagogical worship, which is bestowed on such images.
Brevint. Saul & Samuel, c. 16.

HYPERTHE'TICAL. Gr. Ὑπερθετικος, superlative, from Ὑπερθεσις, *supra-positio*.

But herein this case is ruled against such men, that they affirme these *hyperthetical* or superlative sort of expressions and illustrations are too bold, and bumbasted.

Chapman. Homer. Iliad, b xv. *Comment.*

HY'PHEN. Gr. Ὑφεν, i. e. *ὑφ' ἑν*; *sub unum.* See the quotation from Tooke.

Words *apposed*, or standing in *apposition*, and which in speech we distinguish by joining the terms close in pronunciation, are annexed in writing by the intersertion of the mark - called the *hyphen*: and "this mark (says Tooke) though not a letter or a word, because not the sign of a sound, is itself, what a word should be, the sign of an idea, with this difference, that it is conveyed to the eye only, and not to the ear." And in forming terms by this kind of composition, "our language (says B. Jonson) is above all other very hardy and happy;—joining together, after a most eloquent manner, sundry words of every kind of speech."

Wallis also speaks of certain of this important class of terms, and applies to the prefixed *noun*, (in the absence of one more appropriate,) the title of *Adjectivum respectivum*, and adds that it is nothing else, than the substantive itself placed adjectively—*ipsa vox substantiva adjectivè posita*—and he specifies—sea-fish, sea-voyage, man-slaughter, gold-ring, &c. as examples of this kind of *adjective*.

It will be necessary to be a little more copious in illustrating the force of this mark -, the *hyphen*.

1. In some cases, it supplies the *want* of an adjective termination: as,—sea-fish, piscis marinus: in others it supersedes the *use* of an adjective or participial termination; as,—a gold-ring, i. e. a golden ring; a draw-bridge, i. e. a drawing bridge, or bridge that draws.

2. In others, the termination of the genitive, *es*; or prepositions,—of, for, by, in, &c. e. g. moon-light,—moon's light, or light of the moon: self-love, self-devotion,—love or devotion of self: gold-beater,—a beater of gold: glass-window,—window (made) of glass: glass-blower,—a blower of glass: glass-furnace,—a furnace for making glass: glass-man,—a man for selling, or who sells or deals in glass: counting-house, eating-house,—a house of or for counting or eating: blood-guilty, or thirsty,—guilty, or thirsty of blood: blood-stained,—stained by, or with blood: town-made,—made in town: home-brewed,—brewed at home: fire-proof, water-proof,—proof against fire or water: foot-ball-player,—player at ball with the foot.

3. In others, it supplies the adverbial termination: high-born, high-bred, low-bred,—highly born, highly or lowly bred.

4. In other instances the interpretation of its force is more circumlocutory: as—blood-red,—having the redness of blood, or red as or like blood: flint-hearted,—having a heart of flint; or like, or as hard and impenetrable as, flint. These may more properly be denominated *elliptical phrases* than even composite words.

Some of our elder writers carried their ingenuity in this composition or connexion to an extreme; none more so than Chapman: he was imitated not always happily by Cowper. They are, however, the last resort of a translator, to represent the full force of certain Greek compounds; but in modern writings, there is no limit to extravagance. Some such words and phrases have been introduced among the quotations, to illustrate the simple *prefixed* term, and to shew in what manner, though not to what extent, it has been so employed. The - is frequently used unnecessarily.

What a sight it is, to see writers committed together by the ears, for ceremonies, syllables, points, colons, commas, *hyphens*, and the like!—*B. Jonson. Discoveries.*

If then I say, a *gold-ring*, a *brass-tube*, a *silk-string*: here are the substantives, *adjectivè posita*, yet names of things, and denoting substances. If again I say, a *golden ring*, a *brazen tube*, a *silken string*: do *gold* and *brass* and *silk* cease to be the names of things, and cease to denote substances; because, instead of coupling them with *ring*, *tube*, *string*, by a *hyphen*, thus -, I couple them to the same words by adding the termination *en* to each of them?

HYPO'STASIS. } Fr. *Hypostase*; It. *Ipostasi*; Lat. *Hypostasis*; Gr. Ὑποστασις, (from ὑπο, *sub*, and ἱστασθαι, *stare*; *stare, sistere, sub,*) *subsistentia*; subsistence.

HYPO'STASY.
HYPOSTA'TICAL.
HYPOSTA'TICALLY.

See the quotations from Gardner (Bishop of Winchester) and Tillotson.

Wheir as in that vnion the rest is an ineffable mysterie, the two natures in Christ to haue one subsistence called & termed an *hypostasie*.—*Bp. Gardner. Explication*, fol. 117.

Here is a manifest indication of a higher mystery, *viz.* a trinity in the Persian theology; which Gerardus J. Vossius would willingly understand, according to the Christian hypothesis, of a Divine Triunity, or three *hypostases* in one and the same Deity, whose distinctive characters are goodness, wisdom, and power.—*Cudworth. Intellectual System*, p. 288.

But the word *hypostatical* is understood only by those, and but few of those, that are learned in the Greek tongue, and is properly used, as I have said before, of the union of the two natures of Christ in one person.

Hobbs. Answer to Bp. Bramhall, p. 434.

Now it is evident that the object of their adoration (that which is represented to them in their minds, their thoughts and purposes, and by which God principally, if not solely, takes estimate of humane actions) in the blessed sacrament is the only true and eternal God, *hypostatically* joyned with his holy humanity, which humanity they believe actually present under the veil of the sacramental signs.

Bp. Taylor. Liberty of Prophecying, s. 20.

For he [Sabellius] blasphemeth by affirming that the father is the son, and on the other side that the son is the father; but these men in a manner teach three gods, whilst they divide the holy unity into *hypostases*, alien and wholly divided from each other.

Bp. Bull. The Catholic Doctrine concerning the Trinity.

And this may suffice to have been spoken in general concerning that great mystery of the *hypostatical*, as they that love hard words love to call it, or personal union of the divine and human natures in the person of our blessed Saviour.

Tillotson, vol. i. Ser. 45.

If the consecrated bread be really Christ's body, and his soul and deity be *hypostatically* united therewith (as they all teach), then I cannot see but that we are bound to perform divine worship to the elements in the sacrament, or to that which in common speech we protestants call bread and wine.—*Sharp*, vol. vii. Ser. 13.

HYPO'TENUSE. } Gr. Ὑποτεινουσα, that which subtends or stretches below; from *ὑπο-τειν-ειν*, *subtendere*, to stretch below; usually applied to the side of a right-angled triangle *subtending* or opposite to the right angle.

HYPO'TENUSAL.

Let a man of good parts know all the maxims generally made use of in mathematicks ever so perfectly, and contemplate their extent and consequences as much as he pleases, he will by their assistance, I suppose, scarce ever come to know that the square of the *hypotenuse*, in a right-angled triangle, is equal to the squares of the two other sides.

HYPO'THECATE, *v.* } Lat. *Hypotheca*; Gr. Ὑποθηκη, *suppositio*, *ὑποτιθεσθαι*, *supponere*, (*ὑπο*, under, and *τιθεσθαι*, to place.)

HYPOTHECA'TION.

To place or put under (obligation or bond); to pledge, to pawn.

The property thus settled was distinguished like all other *hypothecated* estates, by small columns, and inscriptions, called ὅροι, erected on the land, or affixed to the houses, and containing a specification of the sum for which they were pledged.—*Sir W. Jones. A Commentary on Isaeus.*

As the Athenian ἀποτιμήματα, or *hypothecations*, were open and notorious like our old feoffments, they seem to have provided for the issue of the marriage no less effectually than the estates in strict settlement so strongly tied by our conveyancers.—*Id. Ib.*

HYPO'THESIS. HYPO'THESISE, *v.* HYPOTHE'TIC. HYPOTHE'TICAL. HYPOTHE'TICALLY. } Lat. *Hypothesis*; Gr. Ὑποθεσις, *suppositio*, from ὑποτιθεναι, *supponere*, to put or place under.

That which is *put* or *placed under*, subjected to; (sc.) question, inquiry; a supposition; that which is supposed.

Then began I to speake, and said; there be yet other kind of sports and plaies called mind, of the which, some they call *hypotheses*, as it were, moralities and representations of histories.—*Holland. Plutarch*, p. 623.

And verily of this nature be all those *hypotheticall* propositions, copulative, disjunctive, &c.—*Id. Ib.* p. 1102.

Hypothetical necessity is that which the supposition or *hypothesis* of God's foresight and pre-ordination lays upon future contingents.—*Clarke. Leibnitz's Fifth Paper.*

I answer, that this precept commands some things absolutely, which oblige all; some things only *hypothetically*, that is, in case God shall discover it to be his will to be obey'd in such particular instances, and consequently oblige there only, where God shall make such discoveries.

I.

I is of a narrower power than E, and uttered with a less opening of the mouth, the tongue brought back to the palate, and striking the teeth next the cheek teeth. That *e* and *i* oftentimes change places has already been noticed. (See *E.*) Wilkins classes *i* as a lingual vowel, (less apart and free than *a* and *e*,) the breath being emitted betwixt the middle of the tongue, in a more convex posture, and the palate. It is called by Ben Jonson a letter of a double power. As a vowel, in the former or single syllables, it hath sometimes the sharp accent; as in *binding*, *thriving*; or all words of one syllable qualified by *e*, as *thine*, *strike*. But the flat in more, as in these, *bill*, *little*, and the like. In the other power it is another letter, and would ask to enjoy another *character*; for where it leads the sounding *vowel*, and beginneth the syllable, it is ever a *consonant*; as in *jump*, *conjure*. And before diphthongs; as *jay*, *juice*. (See *Ben Jonson* and *Wilkins.*) The latter considers *j* to be a compound of *d* and *zh*. *I*, and also *y*, are prefixed to words in old English, as *i*-do, or *y*-do, *i*-go, or *y*-go. They are the remains of the A. S. *Ge*, (qv.)

Aye is constantly written *I*, in elder authors.

I, (the pronoun,) Goth. *Ik*; A. S. *Ic*; Ger. *Ich*; Dut. *Ik*; Sw. *Jag*; Fr. *Je*; It. *Io*; Sp. *Yo*; Lat. *Ego*; Gr. Εγω. And in old English, *Ich* or *ig*, now pronounced *I*: miro inter se concentu (says Wachter) et fortè *arcanâ* quâdam *vi* et *ratione* naturæ. This *arcana vis et ratio* might probably be discovered if the common origin and meaning of a word, so variously written, and so uniformly applied, could be ascertained. The success of Mr. Tooke with the pronouns *it* and *that*, and the article *the*, give reason to expect that he might have made this discovery. Lennep says that the Gr. Εγ-ω, is αγω; meaning—qui *agit*, unde eximiè transiit ad *primam* personam *agentem* denotandam. Of αγ-ω, (differently pronounced and probably written εγ-ω, ιγ-ω, ογ-ω, υγ-ω,) the verbal part is αγ, εγ, &c.; the termination ω is the personal pronoun εγ-ω, or as Dr. Gregory Sharpe says, the first person of the present indicative is formed by adding ω from εγω or εω, I am, to the root; but still the ω is to be accounted for before εγ-ω could receive from usage its character of a personal pronoun. A conjecture must be hazarded.—As the old English *Ich* or *ig* has left the modern *I*, a similar corruption (merely dropping the guttural γ) may from αγ, εγ, or ογ, have given ω. Repetition is, and always has been, a constant resource to give emphasis; and αγ-αγ, εγ-εγ, ογ-ογ, i. e. the verb αγ repeated, may have been intended, by the force or emphasis of repetition, to fix the act expressed by this verb αγ upon the speaker, and by the corruption of a rapid pronunciation, the repeated syllable, or second αγ, εγ, ογ, may have sunk into the mere vocal sound ω: εγ-ω thus formed from εγ-εγ, or εγ-ογ, would be appended to the verb αγ, and constitute the first person αγ-εγω; which would become successively αγ-εω, αγ-ω. The Lat. *Aug-eo* is considered by Lennep to have sprung from the Gr. Αγ-ω; that they had the same source is very probable, and that such source was the Goth. *Auk-an* (A. S. *Eak-an*, to eke, qv.) is not improbable. See Wachter, *Proleg.* sec. 6.

I is used by the person speaking for or instead of the name (*nomen* or noun) by which he is called, to fix the action of the verb, expressed or understood, upon the person so speaking; and is, in grammar, denominated the first personal pronoun.

So *the ich*: so may *I the*: so may *I* prosper.

JACK. Mr. Tyrwhitt, in his note upon v. 14,816 of *Chaucer*, says,—"I know not how it has happened, that in the principal modern languages, *John*, or its equivalent, is a name of contempt, or at least of slight. So the Italians use *Gianni*, from whence *Zani*; the Spaniards *Juan*, as *Bobo Juan*, or *foolish John*; the French *Jean*, with various additions; and in English, when we call a man *a John*, we do not mean it as a title of honour. *Chaucer* (in v. 3708,) uses *Jacke fool*, as the Spaniards do *Bobo Juan*; and I suppose *Jack ass* has the same etymology."

Pennant, also, in his *Zoology*, (iii. 342,) remarks,—"It is very singular that most nations give the name of their favourite dish to the facetious attendant on every mountebank. Thus the Dutch call him *Pickle Herring*, the Italians *Macaroni*, the French *Jean Potage*, the Germans *Hans Wurst*, i. e. *Jack Sausage*, and we dignify him with the title of *Jack Pudding*." Thomson, in his *Etymons*, suggests an odd connexion between *Jack* with a pudding or a sausage, and the Phallic emblems exhibited during the *Saturnalia*.

Skinner suggests the Lat. *Saqum*, which (see Du Cange in v.) was "a military vest thrown over the armour," peculiar to the Gauls, as Varro, Diodorus Siculus, and others testify. Bolingbroke. Remarks on the History of England.

What gives obstinacy without strength, and sullenness without spirit, to the *Jacobite-Tories* at this time.
Id. The Idea of a Patriot King.

The spirit of *jacobitism* is not only gone, but it will appear to be gone in such a manner as to leave no room to apprehend its return; if we reflect that it hath died away, while all that could be done to keep it alive was doing by those who professed it, and by those who valued and recommended themselves on their opposition to all efforts of it, if we consider the numbers of people who have abandoned this interest, notwithstanding the utmost provocations to the contrary

Milton. Paradise Lost, b. vi.

Jactations were used for some amusement and allay in great and constant pains, and to relieve that intranquility which attends most diseases, and makes men often impatient of lying still in their beds.

JADE, *v.* } Skinner thinks he should trifle if
JADE, *n.* } he derived *jade* from the A. S. *Eode*,
JA'DERY. } ivit, q.d. *Equus* qui jam *ire desiit.*
JA'DISH. } The interpretation may be wrong; the etymology perhaps is right. In the North, *jade* is pronounced, or called *yed, yaud*; and the A. S. *Eode*, the past tense and past part. of *gan*, to go, gives in old English *yede*, or *yode*, i. e. *goed*, gone. (See *Yad* in Jamieson.) A *jade* then may be one, that has *yade, yode, goed*, or *gone*; and is, consequently, wearied, tired with going. Hence,—

To *jade*,—to do, or cause to do, to treat as a *jade*. To tire, to weary, to fatigue, to wear out with fatigue or labour; to suffer, to subject to, hard, harsh, or harassing employments or occupations; to harass, to dispirit, to depress. And, further,—

A *jade*,—a wearied—horse or other animal—worn out, dispirited: and, thus, resisting labour; and hence applied to horses, or other animals, that refuse or are unwilling to work; are restive, of mischievous tempers, play mischievous tricks. Applied sportively, or ironically, to young women.

In the passage quoted from Shakespeare, Warburton cuts the knot, he transposes the words *jades* and *beasts*.

Of trimeter, when yet it was sixe-pac'd,
But mere *iambicks* all, from first to last.

B. Jonson. Horace. Of the Arte of Poetrie.

For what ado have we here, what strange precepts of art about the framing of *iambic* verse in our language, which, when all is done, reaches not by a foot, but faileth out to be the plain ancient verse, consisting of ten syllables, or five feet, which hath ever been used among us time out of mind.

There are those, I know, who will regard this praise, whatever it be, as injurious to the learned prelate, rather than honourable to him; who will be ready to tell us that controversial *janglings* are out of date; that they never did any good, and are now at length fallen into general and just contempt.—*Hurd. JA'NIZARY. JANIZA'RIAN. } For the origin and purpose of the institution of this order of men, and the meaning of their name, see the quotations from Temple and Gibbon.

Immediately came officers & appointed *janisers* to beare frō vs our presents.—*Hackluyt. Voyages*, vol. ii. p. 170.

For their men of warre; it is a dangerous state, where they live and remaine in a body, and are used to Donatives: whereof we see examples in the *janazaries* and pretorian bands of Rome.—*Bacon. Ess. Of Empire.*

A sixth [principle] was, the institution of that famous order of the *janizaries*; than which a greater strain of true and deep politie will hardly be observed in any constitution. This consisted in the arbitrary choice of such Christian children throughout their dominions, as were esteemed most fit for the emperor's peculiar service; and the choice was made by the shows or promises of the greatest growth or strength of body, vigour of constitution, and boldness of courage.—*Sir W. Temple. Of Heroic Vertue*, s. 5.

"Let them be called *janizaries* (*yengi cheri*, or new soldiers); may their countenance be ever bright! their hand victorious! their sword keen! may their spear always hang over the heads of their enemies! and wheresoever they go, may they return with a white face!"
Gibbon. The Roman Empire, c. 64.

JA'NUARY. Lat. *Januarius*; inde vocatus quod *Jano* esset sacer.

See the quotation from Plutarch.

And the first [month] which is called *January*, was called after the name of *Janus*. Wherefore methinks that Numa took away the moneth of March from the first place, and gave it unto *January*: because he would have peace before war, and civil things before martiall.
North. Plutarch, p. 60.

In England also, till of late, we had two beginnings of the year, one in *January*, and the other on March 25: but by act of parliament in one thousand seven hundred and fifty two, the first day in *January* was appointed to be the beginning of the year for all purposes.

Id. Ib. Note on the above.

JAPE, *v.* JAPE, *n.* JA'PER. JA'PERY. } *Jape* (says Junius) is an insulting or outrageous vaunting and triumphing over them that are under our subjection. Islandis (he adds) *Gcip*, est *jactatio*; and this, Hickes thinks, is the same with the A. S. *Gilp*, jactantia; the verb is *Gilp-an*, or *Gylp-an*, "to brag, to boast, to glory, to crake, to vaunt; also, to cry out, to *yelpe*," (Somner.) Junius collects a number of passages to show the usages of the word; some of which express strongly the acknowledged resemblance between *japeries* and the tricks of an *ape*. Skinner derives from the Fr. *Gaber*. See GAB, GIBBER, GIBE, JABBER; all of which seem to bear an affinity to *jape*.

Jape, n.—a trick, a jest; *Jape*, v.—to jest; to cheat, to laugh at. *Japer*,—a common jester or buffoon, (Tyrwhitt.)

See JANGLE, for an example from Piers Ploughman.

JAR, *v.* JAR, *n.* JA'RRING, *n.* } Skinner prefers the Fr. *Guerroyer*, which, among other things, signifies *rixari*, to quarrel. Junius thinks, that *Jarre*, litigiosè concertare, seems to come from the A. S. *Eorre, yrre,—ira*; the verb is *Eorrian*, (also *Yrs-ian*,) which Somner interprets to be angry, or *yeery*, and the part. *Eorra*, angry, *yeery*. (See JARGON.) The word was, probably, applied to some discordant, dissonant noise.

To cause or utter a harsh, discordant sound, as from the shake or vibration of a somewhat solid substance struck, or moved; to vibrate harshly; to reverberate harshly. (Met.)—

To disagree; to be or cause to be at variance, to contest, to conflict, to dispute, to quarrel.

JAR, *v.* JAR, *n.* } Fr. *Jare*; It. *Giarro*; Sp. *Jarro, jarra*; ampulla *vel* urceus. Menage derives from the Gr. Ταλος, *vitrum*; thus *hyalum, gyalum, giala, giarra*. JA'RGON, *v.* JA'RGON, *n.* JA'RGONING, *n.* } Fr. *Jargonner, jargon*; It. *Gergo, gergone*; Sp. *Jerigonza, gerigonza*; all of which, (says Lye,) together with the verb to *jar*, (qv.) seem to approach very nearly to the A. S. *Girran, garrire*, to babble, prate, or chatter. Menage derives from *Barbaricus*, and his editor from *Graecum*. Skinner from the It. *Chierico, lingua chiericona*, i.e. *Lingua clericorum*, i.e. the Latin, to the vulgar an unknown tongue, though obliged to hear prayers in it.

To *jargon*, in Gower, seems to be, to utter inarticulate sounds.

Jargon, a language which either himself (the speaker) or his hearers understand not, (Cotgrave;) unintelligible babble or talk; confused, incoherent chatter.

JA'SMINE, or JE'SSAMINE. } Fr. *Jasmin*, or *jessemin*; It. *Gelsomino*; Sp. *Jazmin*. The Gr. ἰασμη, *iasminon myron*, a kind of unguent made from the flowers of the white violet, (*ion.*) Martinius says, that an apiary or place for breeding bees was also called *jasme*, and Minshew adds, that the plant was so called, because the bees delight in the flowers of it.

Levantine regions these: th' Azores send
Their *jessamine*; her *jessamine* remote

By magic summons of th' Orphean lyre.
Cowper. Task, b. iii.

—— Luxuriant above all
The *jasmine*, throwing wide her elegant sweets;
The deep dark green of whose unvarnish'd leaf

JA'VEL. To *jarble*, to wet, to bedew; as by walking in long grass after dew or rain, (Brocket.) *Jarbled*, daggled, (North, Grose.)

The etymon, like the signification of the term, (says Jamieson, in v. *Jevel*,) must be left uncertain.

For then ye wyl be wroken
Of euery light quarel
And cal a lord a *iauel*.—*Skelton. The Boke of Colin Clout.*

How much more abhominable is that pleulish pride in a lewde vnthriftye *iauell*, that hath a purse as penilles as any pore pedler, and hath yet an hert as high as mant a mighti prince.—*Sir T. More. Workes*, p. 1272.

JA'VELIN. JAVELINE'ER. JAVELOTTI'ER. } Fr. *Javeline, javelot*; It. *Giavellotto*; Sp. *Javalena*, (which latter Delpino calls a boar-spear, and Skinner thinks may be from the Sp. *Javal*, a wild boar.) Spelman has *gavelot*, baculi vel teli genus: Kilian,—*gaurlota*. Fland. i. *javeline*, tragula: and Benson,—*gafilucas*, hastilia. *Gafflak* was a kind of dart (*jaculi genus*) among the ancient Suio-Goths: *gafflas*, also, in A. S. is *furca*, forks. Notwithstanding these resemblances *javeline* may be (as Minshew says) q. *jaculine*, from *jaculari*, to throw. Cotgrave calls it,—

A weapon of size between the pike and the partisan.

And many of them from vnder the chariots and from among the wheles, did thrust at our menne with pikes and *iauelins* [*tragulas*] and wounded them.
Goldinge. Cæsar, fol. 20.

When his citizens had permitted and granted unto him [Pittacus] to haue and enjoy those lands which he had conquered from the enemy, as much as he would himselfe; hee stood contented with so much, and no more as lay within one fling, or shot of the *javelin* which he lanced himself.

To *jaunt* is (as in common usage)—

To make short, flighty excursions; to flit to and fro; to move airily, lightly, giddily about. And *jaunty*, or *jaunty*.

This seems to be the main difference betwixt solid *ice* and fluid water, that in the one the parts (whether by any newly-acquired texture, or for want of sufficient heat to keep them in motion) being at rest against one another, resist those endeavours of our fingers to displace them, to which in the other, the parts being already in motion, easily give way.

ICHNE'UMON. *Mus Indicus*, or Indian mouse; Gr. Ιχνευμων, from ιχνευ-ειν, *vestigare*, to watch, quia *vestigat* crocodilos. (See the quotation from Pliny.) Vossius adds another reason for the name, because it roots or searches with its snout for its food. Also the name of an insect.

Now when he is lulled as it were fast asleepe with this pleasure and contentment of his: the rat of India, or *ichneumon*, spieth his vantage, and seeing him lie thus broad gaping, whippeth into his mouth, and shooteth himselfe downe his throat as quicke as an arrow, and then gnaweth his bowels, eateth an hole through his bodie, and so killeth him.—*Holland. ICHNOGRAPHY.
Ichnogra'phical.

Fr. *Ichnographie*; It. *Icnografia*; Sp. *Ichnografia*; Lat. *Ichnographia*; Gr. Ιχνογραφια, from ιχνος, *vestigium*, and γραφη, *scriptura, descriptio*, a description or delineation.

See the first quotation from Evelyn.

Ichnography, by which we are to understand the very first design and ordinance of a work or edifice, together with every partition and opening drawn by rule and compass upon the area or floor, by artists often call'd the geometrical plan or plat-forme, as in our reddition of the parallel. The Greeks would name it ιχνους γραφη, *vestigii descriptio*, or rather *vestigium operis*, the superficial efformation of the future work, which our ground-plot does fully interpret.
Evelyn. Of Architects & Architecture.

Perrault has assisted the text with a figure, or *ichnographical* plot.—*Id. Ib.*

ICHOR.

Blood follow'd, but immortal: *ichor* pure,

Their thirst, thence bloodless, and from death exempt.
Cowper. Homer. Iliad, b. v.

ICHTHYO'LOGY. Gr. Ιχθυολογ-ειν, *de piscibus disserere*, to treat or discourse of fishes, from ιχθυς, a fish, and λεγ-ειν, to discourse.

Brown. Vulgar Errours, b. iii. c. 24.

ICK, *ter.* Gr. Ικος;—ισχυς, strength or power: as *analytic*, that can or may *analyse*. The Gr. Ικος became the Lat. *Icus*. (See Ive.) The A. S. *Ic-an*, to *eke*, to add, to adjoin, and, consequentially, to confirm, to add strength or power, is probably the radical word. See Ic, Ish.

ICO'NOCLAST.
Iconocla'stick.

Fr. *Iconoclaste*; from Gr. Εικων, an image, and κλαστης, a breaker, from κλα-ειν, *frangere*, to break. An image-breaker.

I remember only one thing objected to this testimony of so many bishops, that they were *iconoclasts*, or breakers of images, and therefore not to be trusted in any other article.
Bp. Taylor. Of the Real Presence, s. 12.

Under his auspices [Constantinus Copronymus] a council of *iconoclasts* was held, in which the adoration and the use of images was condemned. Their decrees were put in execution, and a massacre of painted and wooden gods ensued.
Jortin. Remarks on Ecclesiastical History, an. 741.

Both were embellished with a profusion of statues; most of those at York were destroyed in the first emotions of *iconoclastic* zeal; those of Burgos are still in full possession of the homages of the country, and consequently entire.
Swinburne. Spain, Let. 44.

ICONO'GRAPHY. Gr. Εικονογραφια, a description of images, from εικων, an image, and γραφ-ειν, to write or describe.

The inspection alone of these curious *iconographies* of temples and palaces affects one as much by reading almost, as by sight.—*Burton. Anatomy of Melancholy*, p. 269.

ICONO'MICAL. Gr. Εικονομαχος, one who is adverse or inimical to images, from εικων, an image, and μαχη, *pugna*.

We should be too *iconomical* [or quarrelsome with pictures—Margin] to question the pictures of the winds, as commonly drawn in humane heads, and with their cheeks distended.—*Brown. Vulgar Errours*, b. v. c. 21.

Ide'ate, *v.*

Fr. *Idée*; It. and Sp. *Idea*; Lat. *Idea*; Gr. Ιδεα, from ειδ-ειν, *videre*, to see. Formæ quas ιδεας vocant; nostri, si qui hæc forte tractant, *species* appellant, (Cicero.)

For the usage of this word by the Greek philosophers, see the quotation from Holland's *Plutarch*; for the modern usage, see those from Locke and Reid.

Gloryenge in the sublymyte of their wyttes, they wolde be taken for men much wyser than were the Apostles and prophetes, and in their doynges preferred the *idees* or ymagynacyons of Plato to ye eternal spirite of Christ.
Bale. English Votaries, pt. ii.

Idea is a bodilesse substance, which of itselfe hath no subsistence, but giveth figure and forme unto shapelesse matters, and becommeth the very cause that bringeth them into show and evidence. Socrates and Plato suppose, that

these *ideas* be substances separate and distinct from matter, howbeit, subsisting in the thoughts and imaginations of God; that is to say, of mind and understanding Aristotle admitteth verily these formes and *ideas*, howbeit, not separate from matter, as being the patterns of all that which God hath made. The Stoicks, such as were the scholars of Zeno, have delivered, that our thoughts and conceits were the *idea*.—*Holland. Plutarch*, p. 666.

Within my hart though hardly it can shew
Thing so diuine to view of earthly eye:
The faire *idea* of your celestial hew,
And euery part remaines immortally.—*Spenser*, son 45.

That sadness past, which partings had contracted,
And fed their fancies with *ideall* showes,
And careless what they did, as quite distracted,
All (breathing battel) talk'd but of ore-throwes.
Stirling. Jonathan.

A transmission is made materially from some parts, and *ideally* from every one.—*Brown. Vulgar Errours*, b iii. c 9.

Sir, more than kisses, letters mingle soules,
For, thus friends absent speak. This ease controuls
The tediousnesse of my life But for these
I could *ideate* nothing, which could please,
But I should wither in one day.
Donne. To Sir Henry Wotton.

For *ideas*, in my sense of the word, are, "Whatsoever is the object of the understanding, when a man thinks; or, whatsoever it is the mind can be imploy'd about in thinking." (b. i. c. 1) And again, I have these words, "Whatsoever is the immediate object of perception, thought or understanding, that I call *idea*" b ii c 8.
Locke. To the Bp. of Worcester.

——— With inward view,
Thence on th' *ideal* kingdom swift she turns
Her eye, and instant, at her powerful glance,
Th' obedient phantoms vanish or appear
Thomson. Summer.

What the ancient philosophers call species, sensible and intelligible, and phantasme, in later times, and especially since the time of Des Cartes, came to be called by the common name of *ideas*.
Reid. On the Intellectual Powers, Ess. 2. c. 8.

This language of Diderot's, "that every *idea* must necessarily resolve itself ultimately into a sensible representation or picture," (a relic of the old *ideal* system) they have not only rejected with contempt, but they have insisted, that when it was used by the Aristotelians, by Des Cartes, by Locke, it was meant by them to be understood only as a figure or metaphor.—*Stewart. Philosophical Essays*, Ess. 4.

One [mistake respecting the Berkelean theory] confounds the scheme of *idealism* with those sceptical doctrines, which represent the existence of the material world as a thing which is doubtful.—*Id. Ib.* Ess. 2. c. 1.

The truth is that, whereas Berkeley was sincerely and bona fide an *idealist*, Hume's leading object in his metaphysical writings, plainly was to inculcate a universal scepticism.—*Id. Ib.*

Our neighbours, in the mean time, have made choice of the term *ideology*, (a Greek compound, involving the very word we have been attempting to discard) to express that department of knowledge which had been called the science of the human mind.—*Id. Ib.* Ess. 3.

IDE'NTITY. IDE'NTICK. IDE'NTICAL. IDE'NTICALLY. IDE'NTIFY, v. IDENTIFICA'TION. } Fr. *Identité*; It. *Identità*; Sp. *Identidad*; Low Lat. *Identitas*; from *id-em*, the same. Cotgrave calls it—the being almost the very same. See the quotation from Locke.

John Amersham was born in that small corporation in this county, bred a monck in St. Albans, whence he contracted not only intimacy but in some sort *identity* of affection, with John Wheathamsted, abbot thereof.
Fuller. Worthies. Buckinghamshire.

And Plato verily was of this opinion, (which he professed openly, and held as a firm and undoubted truth) that the soule of this universall world is not simple, uniforme, and uncompounded but mixed (as it were) of a certaine power of *identity* and of diversity.—*Holland. Plutarch*, p. 54.

The *identity* of the same man consists in nothing but a participation of the same continu'd life, by constantly fleeting particles of matter in succession vitally united to the same organiz'd body.—*Locke. Hum. Und.* b. ii. c. 27.

——— Lady, your bright
And radiant eyes are in the right:
The beard's th' *identique* beard you knew,
The same numerically true. *Hudibras*, pt. ii. c. 1.

To this intent, we may observe, that the greatest assurance and most eminent knowledge we can have of any thing is, of such propositions as in the schools are call'd *identical*; as if one should say, John is John, or a man is a man.—*Digby. Of Man's Soul*, c. 2.

Let them be compounded of parts homogeneous, or heterogeneous, so long as these are parts in any sense of the word, they cannot subsist in one another, or be *identified*: they must be conceived as distinct from each other, and have distinct affections.—*Law. Enquiry*, c. 3.

And to that purpose, reflecting upon those instances we have given of *identical* propositions, we may in them observe, that evidence arises out of the plain *identification* of the extremes that are affirm'd of one another: so that, in what proportion soever the *identification* of the extreme is plain, the truth of it is evident to us, and our mind is satisfied and quiet.—*Digby. Of Man's Soul*, c. 2.

I cannot remember a thing that happened a year ago, without a conviction as strong as memory can give, that I, the same *identical* person who now remember that event, did then exist.—*Reid. On the Intellect. Powers*, Ess. 3. c. 1.

Neither unbelievers nor believers will allow to these middle men that a new existing soul, which is only a quality resulting from a glorified body, can be *identically* the same with an annihilated soul, which had resulted from an earthly body.—*Warburton. The Divine Legation*, b. v. s. 6.

Let us *identify*, let us incorporate ourselves with the people. Let us cut all the cables and snap the chains which tie us to an unfaithful shore, and enter the friendly harbour, that shoots far out into the main its moles and *jetties* to receive us.—*Burke. On the Economical Reform.*

IDES. Fr. *Ides*; It. *Idi*; Sp. *Idos*; Lat. *Idus*. The etymologies proposed by Plutarch are rejected by Vossius, who adopts from Macrobius the ancient Tuscan, *Iduare*; i.e. *dividere*, to divide: (and *iduare*, according to Beeman, is *ex duo*, into two, (sc.) parts or portions) the *ides* being so called because they divide the month *in duas* velut *partes*.

As for the *ides*, they took their name of this word εἶδος, that signifieth beauty, for that the moon being then at the full is in the very perfection of her beauty; or haply they derived this denomination of Διος, as attributing it to Jupiter.—*Holland. Plutarch*, p. 702.

There was a certain soothsayer, that had given Cæsar warning long time afore, to take heed of the day of the *ides* of March, (which is the fifteenth of the month) for in that day he should be in great danger. That day being come, Cæsar going into the senate-house, and speaking merrily unto the soothsayer, told him the *ides* of March be come: So they be, softly answered the soothsayer, but yet are they not past.—*North. Ib.* p. 613.

IDIOM. IDIOMA'TICK. IDIOMA'TICAL. IDIOTISM. } Fr. *Idiome, idiotisme*; It. and Sp. *Idioma, idiotismo*, Lat. *Idioma*; Gr. ἴδιωμα, from ἴδιος, proper or peculiar. *Idiom* may be explained—

A peculiar propriety of speech in a particular language, or a propriety of speech peculiar to a particular language: not reduced within the general rules of the grammar of that language.

Besides the ill habit which they get of wretched barbarizing against the Latine and Greek *idiom*, with their untutored Angelicisms, odious to be read, yet not to be avoided, without a well continued and judicious conversing among pure authors digested, which they scarce taste.
Milton. Of Education.

Many times the literati and scholars coyn new words, and sometimes in common speech or writing in their native language, give terminations and *idiotisms* suitable to their native language, unto words newly invented or translated out of other languages.—*Hale. Origin. of Mankind*, p. 165.

But whence art thou inspir'd, and thou alone
To flourish in an *idiom* not thy own!—*Dryden*, Ep. 12.

When, upon a greater familiarity with the *idiotisms*, the sense, and the applicableness of Scripture, I came to survey it, I then in some places marked the whole chapter.
Boyle. Works, vol. ii. p. 321.

We may have lost somewhat of the *idiotism* of that language in which it was spoken; and where the conceit is couched in a single word, if all the significations of it are not critically understood, the grace and the pleasantry are lost.—*Dryden. Life of Plutarch.*

Rather, "plain in your ornaments." Milton mistakes the *idiomatical* use and meaning of *Mundities*.
Warton. On Milton. Horace, b. i. Ode 5.

Character has no manner of influence, in the ease and freedom of conversation, on the *idiomatic* differences of expression which flow not from the manners, but from some degree of study and affectation, and only characterize their written and artificial works.
Hurd. On the Manner of Writing Dialogue, Pref.

IDIO'PATHY. Gr. Ἰδιοπαθεια; Lat. *Idiopathea*; from ἴδιος, proper or peculiar; and παθος, passion or affection.

Applied as explained in the first quotation from More.

Idiopathie, ἰδιοπαθεια, is one's *proper peculiar wallow*, mine or thine, being affected thus or so upon this or that occasion.—*More. Song of the Soul. Interpretation of more unusual Words.*

For all men are so full of their own phansies and *idiopathyes*, that they scarce have the civility to interchange any words with a stranger.—*Id. Ib. Preface to Psychathanasia.*

IDIOSY'NCRASY. IDIOSYNCRA'TICK. } Gr. ἴδιος, *proprius*, and *συγκρασις*, from συν, and κρασις, *mixtio*.

A peculiar commixture or temperament, (sc.) of mind.

For the soul in its first and pure nature hath no *idiosyncrasies*, that is, hath *no proper natural inclinations* which are not competent to others of the same kind and condition.
Glanvill. Pre-existence of Souls, c. 10.

Whether quails from any *idiosyncrasy* or peculiarity of constitution do innocuously feed upon hellebore or rather sometime but medically use the same!
Brown. Vulgar Errours, b. iii. c. 28

We have observed, that the denial of God's moral attributes is the great barrier against religion in general but it is more especially serviceable in his lordship's *idiosyncratic* terrors, the terrors of a future state
Warburton. The Divine Legation, b. ii. App.

I'DIOT. IDIO'TICK. IDIO'TICAL. I'DIOTISH. I'DIOTISM. I'DIOTCY, or I'DIOCY. } Fr. *Idiot*; It. and Sp. *Idiota*; Lat. *Idiota*; Gr. ἰδιωτης, from ἴδιος, proper, peculiar, private.

A private person, opposed to one who had obtained public distinction or eminence; extended to the rude, unlearned, (as in the quotation from Wiclif, and in v. 23, 24, of the same chap.) ignorant; then, further, to the simple, foolish; those destitute of the ordinary powers of mind. And see the quotation from Blackstone.

For if thou blessist in spyrit, who filleth the place of an *idyot*, [*qui suppirt locum idiote.*] how schal he seie amen on thi blessyng.—*Wiclif.* 1 *Corynth.* c. 14.

What, wenest thou make an *idiot* of our dame!

Turne a child loose into an apothecaries shop, or an *idiot*, that gally-pot which looks fairest, shall have his first hand, though full of poisonous drugs: where the judicious would chuse the wholesomest, led not by sense, but skill.
Bp Hall, Dec. 3. Ep. 9.

[No man can] think that there is any profit, any advantage in gaining the whole world, if accompanied with the least hazard or possibility of losing his own soul: and therefore the running that adventure is the greatest *idiotism*, the most deplorable, woful simplicity in the world.
Hammond. Works, vol. iv. p. 578.

Ther. Why thou picture of what thou seem'st, and idoll of *ideot-worshippers*, here's a letter for thee.
Shakespeare. Troyl. & Cress. Act v. sc. 1

Dr. Plot, in his *History of Staffordshire*, tells us of an *ideot* that chauncing to live within the sound of a clock, and always amusing himself with counting the hour of the day whenever the clock struck, the clock being spoiled by some accident, the *ideot* continued to strike and count the hour without the help of the clock, in the same manner as he had done when it was entire.—*Spectator*, No 447.

Long mute he stood, and leaning on his staff,
His wonder witness'd with an *idiot* laugh;
Then would have spoke, but by his glimmering sense
First found his want of words, and fear'd offence.
Dryden. Cymon & Iphigenia.

The stupid succession [of Epicureans] persisted in maintaining that the sun, moon, and stars were no bigger than they appear to the eye, and other such *idiotic* stuff against mathematical demonstration.—*Bentley. Of Free-thinking*, § 49.

If in reality his philosophy be foreign to the matter professed: if it goes beside the mark, and reaches nothing we can truly call our interest or concern; it must be somewhat worse than mere ignorance or *idiotism*.
Shaftesbury. Advice to an Author, pt. iii. s. 1.

An *idiot*, or natural fool, is one that hath had no understanding from his nativity; and therefore is by law presumed never likely to attain any.
Blackstone. Commentaries, b i. c 8

JEER, *v.* JEER, *n.* JE'ERER. JE'ERING, *n.* JE'ERINGLY. } Skinner thinks most probably from the Ger. *Scheeren*, consequentially, vexare, dictis et factis contumeliosis, (lit.) scindere, secare, (A. S. *Scer-an*, to shear,) to cut, to divide; the met. (Wachter has no doubt) derived—a *tonsurâ* et vexatione servili ad contumeliam liberi hominis. Junius says,—to *jeer*, or *yeer*, and *yeery*, is the A. S. *Eorra*, from *eorrian*, or *eorsian*, *ge-orsian*, *geyrsian*, irritare, to provoke. And to *jeer* may mean,—

To speak provokingly, tauntingly, scoffingly; to utter provoking, taunting jests; to taunt, to scoff, to mock, or make a mock of. See Scorn.

The knight was courteous and did not forbeare
Her honest merth and pleasaunce to partake
But when he saw her toy, and gibe and *geare*,
And passe the bounds of modest pleasmake,
Her dalliaunce he despis'd and fooles did forsake

Spenser. Faerie Queene, b. ii. c. 6.

JEJU'NE. JEJU'NELY. JEJU'NENESS. JEJU'NITY. } Lat. *Jejunus*, which Martinius derives from the Gr. Κενο-εω, *evacuare*, to empty, for he is *jejune*, whose belly is *empty* of food.

Jejune,—empty, and therefore hungry; empty, void, vacant, destitute, poor, barren.

The Aristotelian hypothesis gives a very dry *jejune* account of Nature's phænomena.

Glanvill. The Vanity of Dogmatizing, c. 8.

If we discourse of man and the law of nature, and the first appetites, and the first reasons abstractedly, and in their own complexions, and without all their relations and provisions, we discourse *jejunely*, and falsely, and unprofitably.—*Bp. Taylor. Great Exemplar*, Pref.

So that there are three causes of fixation; the even spreading both of the spirits, and tangible parts; the closeness of the tangible parts; and the *jejunenesse*, or extream comminution of spirits.—*Bacon. Naturall Historie*, s. 799.

And for close of all a *jelly* made of ye bones of beef, the best for clearness and good relish, and the most delicious that I had ever seen or tasted.

JE'OPARD, *n.* JE'OPARDIER, *v.* JE'OPARDESS. JE'OPARDY. JE'OPARDOUS. JE'OPARDOUSLY. } Written *Jupartie* by Chaucer, and *Jubardy* by Sir T. More. Skinner says,—*Jeopardy*, periculum, q.d. the Fr. *Jeu perdu*, literally, *I have lost*, or as the learned Dr. T. H. prefers, *Jeu perdu*, a lost game. Junius suspects it to be a word originating among gamblers, risking every thing upon the hazard of a die, and at every chance of the table exclaiming, *Jeu perdu!* Tyrwhitt rather believes it to be a corruption of *jeu-parti*. A *jeu parti* is properly a game in which the chances are exactly even: hence it signifies any thing uncertain or hazardous. *Jeu parti* is in Low Lat. *Jocus partitus*; so said, when the power is given to any one of choosing one of two things proposed to him. (Du Cange.) To *jeopard*, is—

To risk, to hazard, to endanger, to imperil.

And whan he, thurgh his madnesse and folie
Hath lost his owen good thurgh *juperte*,
Than he exciteth other folk therto,
To lose hir good as he himself hath do.

JERK, *v.*
JERK, *n.*
JE'RKER.
JE'RKING, *n.*

Skinner thinks—a sono fictum; Junius (who writes it *Yerk*) thinks it has a strong affinity with *irksome*. Lye doubts whether it may not be from the A.S. verb, *Ge-recc-an*, corrigere, animadvertere; to correct or punish, (Somner.) May it not be from *Jar*, *v.* with augmenting suffix, *ic* (eke), *jaric*, *jark*, *jerk*? See JAR.

To hit or strike, to throw, to take away, with a quick, short motion or action; with a sudden, smart blow.

What Stepney meant in the passage below is not very clear.

For this we see, the stiffe and strongest arme,
Which glues a *ierke*, and hath a cunning loose,
Shootes furdest still, and doth alway most harme.
Gascoigne. Vpon Fruite of Fetters.

Is't not sweete pride, when men their crownes must shade,
With that which *jerks* the hams of every jade,
Or floor-strow'd locks from off the barber's sheares!
But waxen crownes well gree with borrow'd haires.

JE'RKIN. Skinner thinks from the A.S. *Cyrtelkin*, tunicula; a diminutive of *Cyrtel*, a tunic. See KIRTLE.

A short, close coat.

Thy rowles, thy ruffes, thy caules, thy coifes, thy *jerkins* and thy jagges.—*Gascoigne. A Chatlenge to Beautie.*

Their teeth are all filed, which they doe for a brauerie, to set out themselues, and doe jagge their flesh, both legges, armes, and bodies, as workemanlike, as a *jerkin-maker* with vs pinketh a *jerkin*.—*Hackluyt. Voyages*, vol. iii. p. 504.

Bp. Hall. Eclogue, Dec. 26th, 1616.

The 18th Dec. 1554 was a great triumph at the court-gate by the kings and divers lords, both English and Spanish: who were in goodly harness, and upon their arms goodly *jerkins* of blue velvet, and hose embroidered with silver and blue sarcenet.—*Strype. Memorials: Queen Mary*, an. 1554.

JESS. Fr. *Gets*; It. *Getti*; Low Lat. *Jacti*; so called—quia cum eis *jaciuntur* falcones et emittuntur ad prædam. (See *Menage.*) Hanmer, in his note on the passage quoted from Shakespeare, says, "*Jesses* are short straps of leather tied about the foot of a hawk, by which she is held on the fist."

Now wanting them he felt himselfe so light,
That like an hauke, which feeling herself freed
From bels and *jesses*, which did let her flight,
Him seem'd his feet did fly, and in their speed delight.
Spenser. Faerie Queene, b. vi. c. 4.

JE'STINGLY.

Skinner prefers the Lat. *Gesticulari*; and Junius, who decides for *gestus*, observes that the Italians say, *gestare*, *gesteggiare*, and *gesticolare*, for *gesticulari*, which the English expound,—to mock a man by gesturing, or by moving his countenance, hand, or other parts of the body ridiculously, and to the prejudice of him, whom he intendeth to mock at. To *jest*—

To play or perform, merry or laughable tricks; to utter laughable sayings; to do or say things invented or feigned, for gamesome purposes, with mirthful or playful intention.

In our old dramatic writers, to *jest* is to play or act a part in a mask.

Who raunge at random *iesting* at the iust

They pretend to follow exactly the footsteps of our blessed Saviour, whose name they have usurpt. At first they gained to themselves the people's esteem by their tolerable carriage: but now they are generally hated and feared, because of their devilish maxims, their bold enterprises, and secret intrigues." (Cotgrave.)

Dryden. Religio Laici. Pref.

I should be glad, therefore, that they would follow the advice which was charitably given them by a reverend Prelate of our Church; namely, that they would join in a public act of disowning and detesting those *jesuitic* principles; and subscribe to all doctrines which deny the Pope's authority of deposing Kings, and releasing subjects from their oath of allegiance.—*Id. There were *jewellers* here [Rio de Janeiro] formerly, who

fourteen months before our arrival, orders came from the

ordered to bring all their tools to the viceroy, and left
without any means of subsistence.

JE'ZEBEL. For the application, see the quotation.

It is my misfortune to be so posted, that my lodgings are directly opposite to those of a *Jezebel*. You are to know, sir, that a *Jezebel* (so called by the neighbourhood from displaying her pernicious charms at her window) appears constantly dress'd at her sash, and has a thousand little tricks and fooleries to attract the eyes of all the idle young fellows in the neighbourhood.—*Spectator*, No. 175.

IF. Skinner says,—"*If* in agro Linc. *Gif*;—ab A.S. *Gif*, si: Hoc a verbo *gif-an*, dare, q.d. dato:" and this Lye quotes with approbation; and it is also adopted by the editor of G. Douglas. Ray,—"*Gin, gif*, in the Old Saxon is *Gif*; from whence the word *if* is made—per aphæresin literæ *g*. *Gif*, from the verb *gif-an*, dare; and is as much as—dato."

Tooke,—"*If* is merely the imperative of the Gothic and A.S. verb *Gif-an*. And in these languages, as well as in the English formerly, this supposed conjunction was pronounced and written, as the common imperative, purely *gif*." "G. Douglas almost always used *gif*: once or twice he has used *if*." "Chaucer commonly uses *if*: sometimes *yeue, yef, yif*."

Richard of Gloucester writes *gef*. R. Brunne, *if*.

Tooke gives the following resolution of the lines cited below from B. Jonson. "She can be reclaimed; *give that*, my largesse hath lotted her to be your brother's mistresse. She cannot be reclaimed, *give that*: my largesse hath lotted her to be your brother's prey."

Another example is:—"How will the weather dispose of you to-morrow?—*If* fair (i.e. *give* fair weather) it will send me abroad; *if* foul (i.e. *give* foul weather) it will keep me at home." Or making the *datum* (or thing given) a sentence. Thus,— *if* it is fair, &c, *if* it is foul, &c. the resolution will be—It is fair weather; *give that*: it will, &c.; It is foul weather; *give that*: it will, &c.

Glanvill and Cheyne use (the one) *illapsable*, and (the other) *illability*—negatively, (*in*, priv.)

Indeed they may be morally immutable and *illapsable*: but this is grace, not nature; a reward of obedience, not a necessary annex of our beings.
Glanvill. Pre-existence of Souls, c. 8.

The *illapse* of some such active substance or powerful being, *illapsing* into matter, and united to it, might form it into that constitution which it enjoyed.
Hale. Origin. of Mankind, p. 321.

There is a seducement that worketh by the strength of the impression, and not by the subtility of the *illaqueation*, not so much perplexing the reason, as overruling it by power of imagination.—*Bacon. On Learning*, b. ii.

He also urgeth the word ἀγχόνη in Matthew doth not only signify suspension or pendulous *illaqueation*, as the common picture describeth it, but also suffocation, strangulation, or interception of breath, which may arise from grief, dispair, and deep dejection of spirit.
Brown. Vulgar Errours, b. vii. c. 11.

Did our Inns of Court students come a little better grounded in ethics and with some entrance into the civil law, such an history as you are meditating would leade them on with delight, and innable them to discover and penetrate into the grounds of natural justice and human prudence, and furnish them with matter to adorn their pleadings, before they wholly gave themselves up to learn to wrangle and the arts of *illaqueation*, and not make such haste to precedents, customes, and common places.
Evelyn. Memoirs, vol. ii. *To Archd. Nicholson, Nov.* 10, 1699.

IL-LA'TION. I'LLATIVE, *adj.* I'LLATIVE, *n.* I'LLATIVELY. } Fr. *Illation*; It. *Illazione*; Sp. *Ilacion*; Lat. *Illatum*, brought or borne in or into; from *in*, and *latum*.

This [world] for that leads the text in, is both a relative, and an *illative*; referring to what he had said in the foregoing words; and inferring a necessary consequence of the one clause upon the other: "Purge out the old leaven; for Christ our Passover is sacrificed for us"—*Id. Rem.* p. 186.

Illation or inference consists in nothing but the perception of the connexion there is between the *ideas* in each step of the deduction, whereby the mind comes to see either the certain agreement or disagreement of any two *ideas* as in demonstration, in which it arrives at knowledge; or their probable connection, on which it gives or withholds its assent, as in opinion.—*Locke. Hum. Underst.* b. iv. c. 17.

His subtle demonstrations present me with an inferred and *illative* truth at which we arrived not but by the help of a train of ratiocinations.—*Boyle. Works*, vol. iv. p. 421.

IL-LA'UDABLE. ILLA'UDABLY. } Lat. *Illaudabilis*, not to be praised; not worthy of praise.

For strength from truth divided and from just,
Illaudable, naught merits but dispraise
And ignominie. *Milton. Paradise Lost*, b. vi.

Admitting that the Apostle's design here (1 Cor. vi. 7.) is to discountenance this practice, not only as weak and *illaudable*, but also as sinful and disallowable; yet I affirm, that he accounted it not sinful from the very *nature of the action*, but only the irregularity of the circumstance.
South, vol. x. Ser. 8.

It is natural for people to form not *illaudably* too favourable a judgment of their own country.—*Broome.*

Did not that choleric and vengeful act of proclaiming him [Hotham] traitor before due process of law, having been convinc'd so late before of his *illegality* with the five members, declare his anger to be incens'd?
Id. An Answer to Eikon Basilike, s. 8.

Fifthly, the reformed, therefore, being by that Church *illegally* condemned for those points, are not Heretikes.
Bp. Hall. The Old Religion, s. 3.

When very *illegal* things were to be done, the common method was this:—a letter was drawn for it to be signed by the King, directing it upon some colour of law or ancient practice: the King signed whatsoever was thus sent to him. and when his letter was read in council, if any of the lawyers or others of the board offered to object to it, he was brow-beaten, as a man that opposed the King's service, and refused to obey his orders.—*Burnet. Own Time*, an. 1678.

He and that engine [the fiddle] of vile noise,
On which *illegality* he plays,
Shall (*dictum factum*) both be brought
To condign punishment as they ought.
Hudibras, pt. i. c. 2.

Here it is not, how long the people are bound to tolerate the *illegality* of our judgments, but whether we have a right to substitute our occasional opinion in the place of law, so as to deprive the citizen of his franchise.
Burke. Speech on the Middlesex Election.

IL-LE'GIBLE. ILLE'GIBLY. } These words, so common in speech, have rarely occurred in writing. Lat. *In*, priv. and *legibilis*, from *legere*, to read; the Lat. *Legibilis* is not of classical authority.

Richard the Third had a resolution, out of a hatred to both his brethren, King Edward and the Duke of Clarence, and their lines, (having had his hand in both their bloods,) to disable their issues vpon false and incompetent pretexts; the one, of attaindor; the other of *illegitimation*.
Bacon. Hen. VII. p 28.

Thomas Cranmer did most ungodlily, and against law, judge the divorce, upon his own unadvised understanding of the Scriptures, upon the testimonies of the Universities, and some bare and most untrue conjectures; and that was afterwards confirmed by two acts of parliament, in which was contained the *illegitimacy* of her Majesty.
Burnet. History of the Reformation, an. 1553.

Lord Roos, having been by act of parliament last year divorced from his wife, and his children by her declared *illegitimate*, and uncapable to inherit, doth now press for an act to enable him to marry another.
Temple. Works, vol. ii. *From Mr. Secretary Trevor.*

Zuinglius confutes that, and says, if the marriage be against the law of God, it ought to be dissolved; but concludes the Queen should be put away honourably, and still used as a Queen, and the marriage should only be dissolved for the future, without *illegitimating* the issue begotten in it, since it had gone on in a public way, upon a received error.

Not to take in our way the full testimonies of Dennis the Areopagite and Origen; that of Tertullian is most clear, the flesh is overshadowed with the imposition of the hand, that the soul may be *illightned* by the Spirit.

Some other things (and too many) her wicked apostasie hath devised and maintained abominably amisse: the body of her antichristianisme, grosse errours, and (by just sequell) heresies; their popes' supremacie, infallibilitie, *illimitation*, transubstantiation, &c.—*Bp. Hale. Origin. of Mankind, p. 28.

We ascribe intellections, volitions, decrees, purposes, and such like *immanent* actions to that nature, which hath nothing in common with us, as being infinitely above us.
Glanvill. The Vanity of Dogmatising, c. 11.

It [the bare decree or purpose of a thing] is, as the schools call it, an *immanent* act; that is, such an one as rests wholly within God, and effects nothing without him.
South, vol. viii. Ser. 4.

Logicians distinguish two kinds of operations of the mind; the first kind produces no effect without the mind, the last does. The first they call *immanent* acts; the second transitive. All intellectual operations belong to the first class; they produce no effect upon any external object.

Bp. Taylor. The Liberty of Prophesying, s. 7.

The honour that now I reach at, is no less than a crown, and that not fading and corruptible, (as all these earthly diadems are,) but *immarcessibly* eternal, a crown of righteousness, a crown of glory.
Bp. Hall. The Invisible World, b. iii. s. 12.

That *immarcescible* crown, as St. Peter calls it, which the Gospel promises to them "who by patient continuance in well-doing, seek for glory and honour," will make a rich amends for the declining of a fading wreath here upon earth, where reputation is oftentimes as undeservedly acquired as lost.—*Boyle. Drummond, pt. ii. son. 18.

It is true that there be some scholasticall and *immateriall* truths (the infinite subdivision whereof have rather troubled than informed Christendome) which for the purchase of peace might be kept in, and returned into such safe generalities as minds not unreasonable might rest in.
Bp. Hall. The best Bargaine

Thus more perfect apprehenders, misconceive *immaterials;* our imaginations paint souls and angels in as dissimilar a resemblance.—*Glanvill. Vanity of Dogmatizing,* c. 7.

But wee, that hold firm to the works of God; and to the sense, which is God's lamp, [*Lucerna Dei, spiraculum hominis.*) will enquire with all sobriety, and severitie, whether there be to be found on the footsteps of nature, any such transmission and influx of *immateriate* virtues.
Bacon. Naturall Historie, § 900.

The soul therefore, the whole conscious being; the power of thinking that resides in it, as well as the bare *immaterial* subject or substance itself, (whatever may be said concerning the power of God in this question,) will clearly, notwithstanding what any finite power can do, of necessity be naturally immortal.—*Clarke. A Defence of an Argument,* &c.

Going to England very young, about 13 years ago, he [Dr George Berkeley] became founder of a sect there called the *Immaterialists,* by the force of a very curious book upon that subject.—*Swift. To Lord Carteret, Sept.* 3, 1724.

All the great ends of morality and religion are well enough secur'd, without philosophical proofs of the soul's *immateriality;* since it is evident, that He who made us at first begin to subsist here, sensible intelligent beings, and for several years continu'd us in such a state, can and will restore us to the like state of sensibility in another world, and make us capable there to receive the retribution He has design'd to men, according to their doings in this life.
Locke. Hum. Underst. b. iv. c. 3.

The notion of the soul's *immateriality,* evidently facilitates the belief of a resurrection and of a future retribution, by securing a principle of personal individuality, upon which the justice of all reward or punishment is grounded.
Clarke. A Third Defence.

As well might nothing bind Immensity,
Or passive matter *immaterials* see,
As these should write by reason, rhyme and rule,
Or be turn wit, whom nature doom'd a fool.
Harte. Essay on Satire.

In the early part of his own life, accordingly, he [Dr. Reid] informs us, that he was actually a convert to the scheme of *immaterialism;* a scheme which he probably considered as of a perfectly inoffensive tendency, as long as he conceived the existence of the material world to be the only point in dispute.—*Stewart. Philosophy of the Hum. Mind,* c. 1. s. 3.

It was easy for me to represent to you, how unfinished and unpolished the trifles you called for were; especially considering the *immaturenesse* of some of them would not probably be the chief thing, that would make many think they come forth unseasonably.—*Boyle. Works*, vol ii p 323.

Now these are expressly said to be abrogated in the dispensation promised, it being declared that the virtuous, though dying *immaturely*, should be as if they had lived an hundred years; and sinners, though living to an hundred years, as if they had died *immaturely*

Warburton. Divine Legation, b. vi. s 6.

To fit a man for managing his own affairs, a certain *maturity* of age is necessary. What that is and how far the validity of contracts may be affected by the contractor's *immaturity* of age, it belongs to human laws to determine.

The third admirable demonstration of the *immediateness* of the Divine power, wisdom, and ordination, is this, that vegetables, as also animals and mankind, were endued with a power, faculty, and a certain law fixed and radicated in them, to transmit their specifical nature to succeeding individuals by propagation and seminal traduction, whereby their species might be preserved.

Will not all wise men in the world conclude, that the Church of God which was then holy, not in title only and design, but practically and materially; and persecuted, and not *immerged* in secular temptations, could not all in one instant joyn together to alter that form of church government, which Christ and his apostles had so recently established.—*Bp. If we add to this, that the common people, who compose the gross body of mankind and for every individual of which religion is intended, are, by their station and employments, most *immerged* in matter, we shall need no further proof, that a mere mental intercourse with God, which makes religion only a divine philosophy in the mind, is altogether unfit for such a creature as man in his present station upon earth.—*Warburton. ——— There is your crowne,
And he that weares the crowne *immortally*,
Long guard it yours.
Shakespeare. 2 Pt. Henry IV. Act iv. sc. 4.

You begin with a distinction (Præmon. sec. 3) that the soules of some men are made *immortal*, by the Spirit of God, to happiness; and the souls of some others, by the will of God, to punishment. Now what can be more precarious and groundless than this distinction? For what real difference is there in the thing itself, between being *immortalized* by the Spirit and by the will of God?
Clarke. A Letter to Mr. Dodwell.

It is, on the contrary, evidently far more agreeable to right reason or to our notions of God, to derive the *immortality* of the soul, and especially of a miserable one, from its own nature than from the Divine pleasure; that is, to suppose the soul to have been at first created such a substance, as, by the ordinary concourse of Divine Providence, would continue for ever; than that it was created of a mortal and perishable nature, but by the extraordinary and miraculous power of God, is continually supported only to endure torment and punishment, beyond the capacity of its own nature, to eternity.—*Id. Ib.*

They [the Egyptians] are also the first of mankind who have defended the *immortality* of the soul.

Something is amisse in us, and it wanted a name till the Spirit of God by enjoyning us the duty of *mortification*, hath taught us to know that *immortification* of spirit is the cause of all our secret and spiritual indispositions.
Bp. Taylor. The Great Exemplar, pt. i. s. 6.

For this state is a denying of our affections nothing but the sin, it enjoyes as much of the world, as may be consistent with the possibilities of heaven: a little lesse then this is the state *of immortification*, and a being in the flesh, which (saith the Apostle) cannot inherit the kingdome of God.
Id. Ib.

Whosoever will enter into a course of purging his nature of that humour, (which I may call a moral jaundice that discoloureth the whole skin of civill conversation, and putteth us out of taste of the sweetness of purity) shall recover the right savour and gust of purity by the same degrees he is cleansed from the other *immundicity*.

One of Milton's antagonists appears to have used *improper* as a verb. See the quotation from Milton.

See the quotation from Spelman, in v. *Appropriate.*

Canst thou *impropriate* to the
Augustus worthy praise?
Drant. Horace. Ep. to Quintius.

To impose them [forms] upon ministers lawfully call'd, and sufficiently try'd, as all ought to be ere they be admitted, is a supercilious tyranny, *impropriating* the Spirit of God to themselves.—*Milton. Animad. upon Rem. Def.*

Lastly, he has resolv'd that neither person nor cause shall *improper* him. I may mistake his meaning, for the word ye hear is *improper*. But whether if not a person, yet a good parsonage or *impropriation* bought out for him would not *improper* him, because there may be a quirk in the word, I leave it for a canonist to resolve.
Milton. An Apology for Smectymnuus.

After this there followed many other Bulls for other Religious Houses and Rectories that were *impropriated*.
Burnet. History of the Reformation, vol i. b. i.

All the *impropriations* might easily have been purchased in those days, when the national funds were all clear, and such vast arrears in all Bishoprics, as if laid out to that use, would very much have lessened the number of them
Nelson. Life of Bp. Bull.

This design he thought would be more easily carried on, if some rich *impropriators* could be prevailed upon to restore to the Church some part of her revenues, which they had too long retained.—*Id. Ib.*

Whilst all the rest their sovereign beauties show.

The *improsperousness*, ruin perhaps, πανωλεθρια, of a whole kingdom should be imputable to one such sin, and all our prayers to Heaven for you, be out sounded and drown'd with that most contrary eloquence.

Now seuen revolving years are wholly run,
Since this *improsperous* voyage we begun.

Hoole. Orlando Furioso, b. xxxviii.

For the prosperity or *improsperity* of a man, or his fate here, does not entirely depend upon his own prudence or imprudence, but in a great measure upon his situation among the rest of mankind, and what they do.

IM-PROVE. Fr. *Improuver*; Lat. *Improbare*, (*in*, priv. and *probare*, to prove, A. S. *Profian*, *prob*-are, examinare, judicare,) to dis*prove*, disap*prove*, re*prove*. See UNIMPROVED.

IM-PROVE, *v.* } *Approve* and *improve*, *approvement* and *improvement*, are used in our old law as respectively equivalent. By statute of Merton (see in *Rastall*) the great men of England, leaving sufficient pasture, are allowed to make the profit or *approvement* of the residue, &c. and lords of waste woods and pastures are allowed to *improve* the said woods, &c. or make *improvement* of them; the tenants having sufficient pasture to their hold. Hence Skinner derives the verb from the Lat. *In*, and *probus*; q. d. *probum* seu bonum facere vel fieri, to make or become useful or good. But an *approver*, or a *prover*, *probator*, is in law also—one, who being indicted of treason or felony, and arraigned for the same, doth confess the fact before plea pleaded, and appeals or accuses others his accomplices in the same crime, in order to obtain his pardon. Such *approvement*, Blackstone adds, can only be in capital offences. And it is not at all probable that these words differ in any thing except their application: in the latter usage, to *approve* is simply to *prove* or make *proof* of. (See IMPROVE, *ante.*) In the former, to make *proof* or trial of, to make experiment upon; and, consequentially,—

Ser. 1.

In a word, this important representation instructs us in these two points of doctrine: first, that the kingdom, whose blessings were produced by the death and passion of Christ, was secured to us even from the foundation of the world: and secondly, that it was actual righteousness, as well as *imputative*, which made those who had never heard explicitly of Christ, to become partakers of his merits.

IN, *prep.* Goth. *In*; A.S. *In*, *on*; Ger. Dut. and Sw. *In*; Fr. and Sp. *En*; Lat. and It. *In*; Gr. Ἐν. See INN.

I. Tooke observes upon this word:—"In the Gothic and Anglo-Saxon, *Inna*, means—uterus, viscera, venter, interior pars corporis. (*Inna*, *inne* is also, in a secondary sense, used for *cave*, *cell*, *cavern*.) And there are some etymological reasons which make it not improbable that *out* derives from a word originally meaning *skin*. I am inclined to believe that *in* and *out* come originally from two *nouns* meaning those parts of the body." (*Diversions of Purley*, vol. i. p. 457, note.) This presumes that our ancestors had a name for these parts of the body before they had one for any other things, bearing the same relation to each other. *In* is not included *by name* in the Diagram of Wilkins for the explication of what he calls the *local* prepositions; but he seems to consider it as equivalent in usage, when expressing *motion*,—to the compound *into*, and,—when expressing *rest*,—to the compound *within*. The former he represents upon the edge of a globe in motion of *ingress*; the latter near the centre in a state of *rest*.

In composition IN has either the effect of giving force or emphasis to the word to which it is prefixed; or of merely adding its own signification. Wachter calls it either an adverb—loci interioris, or an adverb—intensionis sensum reddens.

Generally,—see the word to which IN is prefixed for the etymology.

In is sometimes written by old writers for *on* or *upon*. As in Chaucer,—

And *in* an hill how wretchedley he deid.

He starfe full wretchedly *in* a mountaine.—*Id.* v. 14,545.

Many words formerly written *en* or *em*, are now usually written *in* or *im*, and the contrary; many were written capriciously either *en* or *in*; and many still continue to be so. *In* (priv.) is never written *en*. See EN.

IN-ABU'SIVELY. Without *abuse* or ill *use*.

A state of morality shall always want that infinite wisdom and purity of intention which resideth in the Deity, and which makes power to consist *inabusively* only there, as in its proper sphere.

For *inadvertency*, or want of attendance to the sense and intention of our prayers, is certainly an effect of lukewarmness, and a certain companion and appendage to humane infirmity; and is only so remedied, as our prayers are made zealous, and our infirmities pass into the strengths of the Spirit.—*Bp.
